Governing States and Localities 3rd Edition Despite reports of the recession nearing an end, states will have to struggle to make ends meet well into the foreseeable future. The choices are sometimes stark trade-offs between roads and schools, public safety and health care. The new edition of *Governing States and Localities* responds to this reality with a new sharper focus on economic and budget pressures. The chapter on finances comes earlier in the book, helping to frame each of the subsequent issues, and a new feature called BAD States under Stress (BAD) helps students see how fiscal and budgetary policy affects all areas of state and local governance. A brand new chapter on the environment highlights the leadership role the states have taken in fighting climate change, creating green jobs, and combating pollution. Still a great blend of engaging journalistic writing, high-quality academic analysis, and the latest scholarship, the third edition has been thoroughly updated to account for such major developments as the recentralization of federalism under the Obama administration and the further politicization and rising costs of judicial elections. The authors have expanded coverage of referendums and direct democracy, as well as the increased role states play in homeland security. A series of well-designed features asks students to apply the comparative method. BAD: A Difference that Makes a Difference. BAD to see how intergovernmental relations impact localities.
