Britain. Parliament. House of Commons. Defence Committee,2009 The mission of the MoD s Ministry of Defence s Defence
Equipment and Support DE S organisation is to equip and support our Armed Forces for operations now and in the future
Support to current operations in Afghanistan and Iraq has taken priority and the organisation has performed well The Urgent
Operational Requirement UOR system remains highly effective in enabling vital equipment to be provided quickly to the two
theatres to meet rapidly changing threats but there are concerns that UORs represent a partial failure to equip our forces for
predicted expeditionary operations and on their effects on the core budget in future years DE S performance in procuring
longer term equipment declined significantly in 2007 08 The forecast costs for the 20 largest defence projects increased by
205 million and the forecast delays increased by some 100 months in the year The improvements promised by both the long
standing application of the principles of smart procurement and the more recent formation of the DE S organisation appear
not to have materialised The FRES Future Rapid Effect System programme has been a fiasco being poorly conceived and
managed from the outset The Committee condemns the failure to date to publish an updated version of the Defence
Industrial Strategy and considers that its continuing absence increases the risk that the UK Defence Industrial Base will not
be able to meet the future requirements of our Armed Forces Finally the UK s future military capability depends on the
investment made today in Research and Development Sufficient funding for defence research needs to be ring fenced and the
MoD must recognise the very high priority of research and reverse the recent cut in research spending **Naval Training**
