Human Development and Family Studies Bridget A. Walsh, Lydia DeFlorio, Melissa Burnham, Dana A. Weiser,2017

Introduction to Human Development and Family Studies is the first text to introduce human development and family studies

HDFS as inextricably linked areas of study giving students a complex yet realistic view of individuals and families. Pioneers of research paradigms have acknowledged that the family is one setting in which human development occurs. Moreover, in many academic programs the lines of these two disciplines blur and much work is inherently multidisciplinary and interdisciplinary. This book helps to fortify an understanding of HDFS and subareas within it. Vignettes from current HDFS students as well as new professionals, an overview of the lifespan stages within the family context, a wide description of research methods and applications, current policy issues relevant to the area, and discussions of practice careers coupled with strategies for pursuing specializations or careers in the area are hallmarks of this textbook.

Introduction to Human Development and Family Studies is essential reading for students new to the major and minor, wanting to know: What is HDFS? Who are the people involved in HDFS? Why is HDFS important? How does theory and research inform work in HDFS? What does the pursuit of being an ethical professional require? What are the key areas in HDFS? Incredibly user friendly both on the page and online, the text also features the following resources: Chapter Summaries where the main points of each chapter are pinpointed at the end of every chapter for review and study; Key Terms listed and defined within the margins of every chapter; a complete Glossary at the end of the text; and Flashcards online for additional review and study. A Challenge Integration section at the end of each chapter that underscores concepts from the chapter and draws connections between content presented in other chapters; Journal Questions to encourage reflection about the content and encourage thinking about some of the content coupled with students' own experiences; Suggested Resources that lists relevant websites, books, articles, and video links for further study; A Closer Look at Applied Experiences; Appendix outlines the internship process and shows how the internship experience can be meaningful and useful; and a Consuming Research Appendix that focuses on what it means to be a consumer of research, the knowledge and skills consumers need, and considerations for transitioning from a consumer of research to a producer of research.
