Big-Box Swindle Stacy Mitchell, 2007-10-01 A Book Sense Pick and Annual Highlight With a New Afterword In less than two decades large retail chains have become the most powerful corporations in America In this deft and revealing book Stacy Mitchell illustrates how mega retailers are fueling many of our most pressing problems from the shrinking middle class to rising pollution and diminished civic engagement and she shows how a growing number of communities and independent

businesses are effectively fighting back Mitchell traces the dramatic growth of mega retailers from big boxes like Wal Mart Home Depot Costco and Staples to chains like Starbucks Olive Garden Blockbuster and Old Navy and the precipitous decline of independent businesses Drawing on examples from virtually every state in the country she unearths the extraordinary impact of these companies and the big box mentality on everything from soaring gasoline consumption to rising poverty rates failing family farms and declining voting levels Along the way Mitchell exposes the shocking role government policy has played in the expansion of mega retailers and builds a compelling case that communities composed of many small locally owned businesses are healthier and more prosperous than those dominated by a few large chains More than a critique Big Box Swindle provides an invigorating account of how some communities have successfully countered the spread of big boxes and rebuilt their local economies Since 2000 more than two hundred big box development projects have been halted by groups of ordinary citizens and scores of towns and cities have adopted laws that favor small scale local business development and limit the proliferation of chains From cutting edge land use policies to innovative cooperative small business initiatives Mitchell offers communities concrete strategies that can stave off mega retailers and create a more prosperous and sustainable future

Public Gardens and Livable Cities Donald A. Rakow, Meghan Z. Gough, Sharon A. Lee, 2020-11-15 Public Gardens and Livable Cities changes the paradigm for how we conceive of the role of urban public gardens Donald A Rakow Meghan Z Gough and Sharon A Lee advocate for public gardens as community outreach agents that can and should partner with local organizations to support positive local agendas Safe neighborhoods quality science education access to fresh and healthy foods substantial training opportunities and environmental health are the key initiative areas the authors explore as they highlight model successes and instructive failures that can guide future practices Public Gardens and Livable Cities uses a prescriptive approach to synthesize a range of public private and nonprofit initiatives from municipalities throughout the country In doing so the authors examine the initiatives from a practical perspective to identify how they were implemented their sustainability the obstacles they encountered the impact of the initiatives on their populations and how they dealt with the communities underlying social problems By emphasizing the knowledge and skills that public gardens can bring to partnerships seeking to improve the quality of life in cities this book offers a deeper understanding of the urban public garden as a key resource for sustainable community development
