THE MACKENZIE PIPELINE Arctic Gas and Canadian Energy Policy Peter H. Pearse, **Mackenzie Pipeline** Peter H. Pearse, 1974

Energy Capitol Arthur Mason, 2024-11-04 Energy Capitol explores the waning of regulatory politics surrounding large scale energy systems in the United States at the turn of the millennium Throughout the twentieth century large scale energy systems in North America and Europe were highly regulated by a national political community whose decision making authority relied on positions of bureaucratic and capitalist led industry organization After restructuring in energy markets such as natural gas and electricity during the 1980s the culture of power surrounding political decision making began to decline Against this backdrop Arthur Mason examines the struggle by oil companies and federal state agencies to deliver natural gas from Alaska and Canada s Mackenzie Valley to markets in midcontinental United States highlighting regulatory collusion to advance their plans Mason employs perspectives from anthropology political science sociology and science and technology studies to analyze ethnographic data gathered at the Alaska State Legislature and in the Office of the Alaska Governor in Washington D C The focus is primarily on plans for building an estimated 20 billion 3 500 mile pipeline to transport natural gas from the North American Arctic to midcontinental pipeline infrastructure in the United States By illuminating key aspects of federal state political decision making processes on energy transportation infrastructure Mason highlights the activities of economists lawyers and other regulatory intellectuals whose accumulated work impedes Arctic proposals through a reliance on judgments that no longer

reflect the conditions in which large scale projects are increasingly determined Written by a leading expert in the field this book will be of great interest to students and scholars of energy policy environmental politics governance and regulation and risk It will also be relevant to industry professionals working in environmental NGOs and government departments in energy and climate forecasting Worldwide Pipeline & Contractors Directory ,1998 *Worldwide Directory, Refining and Gas Processing* ,1981 *Inventory of Current Energy Research and Development* Oak Ridge National Laboratory,1974
