Tactical & Strategic Reasoning

Can You Make Important
Decisions When It Counts?

What Are Your Strategies?

The HBRI evaluates how you confront problems placed before you. It attempts to assess, essentially, how you reason and whether you have the skills to confront complex issues in the professional world.

STRATEGIC REASONING:

These questions will evaluate your analytical skills. You'll be presented with graphs, tables, and charts and asked to draw conclusions. You'll also be expected to identify logical errors and inaccuracies while scanning data.

TACTICAL REASONING:

Sometimes, you'll have to make important decisions with a limited amount of information. These questions will analyze how well you can make informed judgements in high risk situations.

Toward Great Dhaka Julia Bird, Yue Li, Hossain Zillur Rahman, Martin Rama, Anthony J. Venables, 2018-07-19 A unique strategic opportunity beckons Bangladesh Dhaka the economic powerhouse of the country stands on the cusp of a dramatic transformation that could make it much more prosperous and livable Today Dhaka is prone to flooding congestion and messiness to a point that is clogging its growth Eastward its east where two major highway corridors will one day intersect is a vast expanse of largely rural land And much of it is within 6 kilometers of the most valuable parts of the city The time to make the most of this eastward opportunity is now Many parts of East Dhaka are already being developed in a haphazard way at an alarmingly rapid pace Private developers are buying land and filling it with sand so they can build and sell new houses and apartments Canals and ponds are disappearing and the few narrow roads crossing the area are being encroached by construction This spontaneous development could soon make East Dhaka look like the messy western part of the city and retrofitting it later will be more difficult and costlier than properly planning and developing it now Toward Great Dhaka A New Urban Development Paradigm Eastward seeks to analyze how the opportunity of East Dhaka could be realized Using state of the art modeling techniques the study simulates population housing economic activity and commuting times across the 266 unions that constitute Greater Dhaka It does so under various scenarios for the development of East Dhaka but always assessing the implications for the entire city The simulations suggest that pursuing a strategic approach to the development of East Dhaka would make Greater Dhaka a much more productive and livable city than continuing with business as usual Based on current trends Greater Dhaka would have a population of 25 million in 2035 and an income per capita of US 8 000 at 2015 prices However embracing a strategic approach would add 5 million people to the city And it would be a more productive city with nearly 1.8 million more jobs and an income per capita of more than US 9 200 at 2015 prices enough to put Dhaka on the map of global cities
