**Head First HTML5 Programming** Eric Freeman, Elisabeth Robson, 2011-10-06 HTML has been on a wild ride  
Sure HTML started as a mere markup language but more recently HTML's put on some major muscle Now we've got a  
language tuned for building web applications with Web storage 2D drawing offline support sockets and threads and more  
And to speak this language you've got to go beyond HTML5 markup and into the world of the DOM events and JavaScript  
APIs Now you probably already know all about HTML markup otherwise known as structure and you know all about CSS style  
presentation but what you've been missing is JavaScript behavior If all you know about are structure and presentation you  
can create some great looking pages but they're still just pages When you add behavior with JavaScript you can create an  
interactive experience even better you can create full blown web applications Head First HTML5 Programming is your  
ultimate tour guide to creating web applications with HTML5 and JavaScript and we give you everything you need to know to  
build them including how to add interactivity to your pages how to communicate with the world of Web services and how to  
use the great new APIs being developed for HTML5 Here are just some of the things you'll learn in Head First HTML5  
Programing Learn how to make your pages truly interactive by using the power of the DOM Finally understand how  
JavaScript works and take yourself from novice to well informed in just a few chapters Learn how JavaScript APIs fit into the  
HTML5 ecosystem and how to use any API in your web pages Use the Geolocation API to know where your users are Bring  
out your inner artist with Canvas HTML5's new 2D drawing surface Go beyond just plugging a video into your pages and  
create custom video experiences Learn the secret to grabbing five megabytes of storage in every user's browser Improve  
your page's responsiveness and performance with Web workers And much more

**Head First Ajax** Rebecca M.

Riordan,2008-08-26 Ajax is no longer an experimental approach to website development but the key to building browser based applications that form the cornerstone of Web 2.0. Head First Ajax gives you an up to date perspective that lets you see exactly what you can do and has been done with Ajax. With it you get a highly practical in depth and mature view of what is now a mature development approach. Using the unique and highly effective visual format that has turned Head First titles into runaway bestsellers this book offers a big picture overview to introduce Ajax and then explores the use of individual Ajax components including the JavaScript event model DOM XML JSON and more as it progresses. You'll find plenty of sample applications that illustrate the concepts along with exercises quizzes and other interactive features to help you retain what you've learned. Head First Ajax covers The JavaScript event model Making Ajax requests with XMLHttpRequest objects The asynchronous application model The Document Object Model DOM Manipulating the DOM in JavaScript Controlling the browser with the Browser Object Model XHTML Forms POST Requests XML Syntax and the XML DOM tree XML Requests Responses JSON an alternative to XML Ajax architecture patterns The Prototype Library. The book also discusses the server side implications of building Ajax applications and uses a black box approach to server side components. Head First Ajax is the ideal guide for experienced web developers comfortable with scripting particularly those who have completed the exercises in Head First JavaScript and for experienced programmers in Java PHP and C who want to learn client side programming.
