Mayan Calandar Found in the Great Pyramid Brian Leonard Golightly Marshall,2008-07-20 Encoded 5000 years ago was a calendar that could not be understood until the moon reached a precise point in space that point was December 18th 1922 The solar system then began 1114 lunation s of the moon like a second hand ticking down to 2012 predicting the crossing of the Milky Way Equator December 21st 2012 and this matches perfectly the Mayan calendar In addition the pyramid identifies who Jesus is today and condemns all religions in particular the Christian as being the Beast 666 **Great**

Ward,2015-06-05 In about the year 1980 I began recording the non ordinary events people met and places visited in my life Eventually I looked back into my past life to recount past events people and places which came to mind for the earlier years As subsequent years rolled by I had assembled a list of 172 items which I

consider unusual or non ordinary in my lifetime My next step in the evolution of this work was to elaborate on each of the parts to expand on each of the one or two line statements When assembled it dawned on me that it provided an autobiography albeit different from a usual biography of my life Hopefully the treatment will render the human story more entertaining to the average reader Having reached the middle of my octogenarian decade perhaps a better perspective can thus be obtained The reader s entertainment is the effect I wish to impart If this should ensue the effort shall not have been merely self aggrandizement *Michigan Ensign* , **Library of Congress Subject Headings** Library of Congress,2011
