Health Communication Models and Practices in Interpersonal and Media Contexts: Emerging Research and Opportunities Belim, Célia, Vaz de Almeida, Cristina, 2021-08-13. Successful communication can help to prevent health problems, promote healthy behaviors and lifestyles, and overcome health challenges. However, various issues have created obstacles for the promotion of health communication, including low health literacy, the reluctance of patients to admit their lack of understanding, the overestimation by health professionals of a patient's level of understanding, and insufficient health literacy tools, to name a few. It is thus essential to convey the latest communication models and practices being used to increase health literacy and provide adequate health information to society. *Health Communication Models and Practices in Interpersonal and Media Contexts: Emerging Research and Opportunities* explores and analyzes the fundamentals, models, and dimensions of health communication and offers practical solutions for better communications with direct outcomes in the optimization of citizens' health literacy. The book also discusses and proposes more effective health communication models and practices as a tool for the construction of more solid and evident health outcomes. Covering topics such as cancer prevention, health professionals' communication, and models of health communication, this text is essential for health professionals, communication professionals, professors, teachers, researchers, academicians, and students.

The Routledge International Handbook of Critical Disability Studies Katie Ellis, Mike Kent, Kim Cousins, 2024-12-26. Disability impacts everyone in some way. Approximately 10-20% of the world's population live with disability, and the associated issues affect not just these individuals but also their friends, family, and colleagues. When looking at it this way, it is strange that disability continues to be thought of as an anomaly, either as a medical problem located in a damaged body or something that exists exclusively outside the body in a society that takes little account of non-normative bodies. Critical disability studies both questions these existing notions of disability and interrogates how they have become a part of the academic attitude towards the field. As the first comprehensive handbook on critical disability studies, this volume provides an authoritative overview of the subject. Including 32 chapters written by established scholars and emerging next-generation researchers, it also includes contributions from activists, writers, and practitioners from the global north and the global south. Divided into three parts: Representation, art and culture; Media, technology and communication; and Activism and the life course, it offers discussions on core critical disability studies topics, including the social model, technology studies, trauma studies, representation, and queer theory, as well as ground-breaking work on emerging and cutting-edge areas such as neurodiversity and critical approaches in the Middle East, United States, Australia, and Europe. It is required reading for all academics and students working in not just critical disability studies but sociology, digital accessibility, and inclusion, health and social care, and social and public

policy more broadly

Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media Management Association, Information Resources, 2021-07-16 Increasing health literacy among patients is a difficult task as medical jargon and healthcare directions can be overwhelming and difficult to comprehend In today's digital world people are more connected than ever before and have the ability to find healthcare information in a way that was not possible in recent years Mass media and social media have become particularly influential in conveying health information to the public With the amount of misinformation being spread coupled with poor health literacy skills it is imperative that new strategies and policies are undertaken to ensure that patients and the general public receive accurate information and are appropriately educated in order to provide them with the best possible knowledge and care The Research Anthology on Improving Health Literacy Through Patient Communication and Mass Media provides an overview of the importance of health literacy and the various means to achieve health literacy for patients using several strategies and elements such as patient communication and mass media The book covers health awareness challenges that have been faced recently and historically and pushes for better patient provider communication The book also examines the use of social media virtual support groups and technological tools that aid in the facilitation of health knowledge Covering a range of key topics such as patient safety health illiteracy and eHealth this anthology is crucial for healthcare professionals

researchers academicians students and those interested in understanding the importance of health literacy and how it connects to media and communication Through a Lens of Scarcity Hanna Luetke Lanfer, 2021-09-09 The conditions for strategic health communication campaigns as a public health tool are examined for low income contexts The theoretical framework drafts a socioecological model with an extension of poverty influences to bring into focus the dynamics of a resource poor environment and its impact on health related behaviours and health campaigns The research design includes two studies conducted in Sierra Leone Study 1 triangulated three qualitative methods to explore past and current health communication practice in Sierra Leone Study 2 is a mixed methods field experiment on handwashing which explored the effects of different campaign strategies Results show that a community based participatory approach with the inclusion of local leaders as health messengers was associated with higher chances of behaviour change than a non treated setting Further pathways for context sensitive approaches for deprived audiences are suggested **Dialectical Perspectives on**

Media, Health, and Culture in Modern Africa Akwala, Alfred O., Ngetich, Joel K., Theuri, Agnes Wanjiku Muchura, 2020-10-30 Communication plays a critical role in enhancing social cultural and business relations Research on media language and cultural studies is fundamental in a globalized world because it illuminates the experiences of various populations There is a need to develop effective communication strategies that will be able to address both health and cultural issues globally Dialectical Perspectives on Media Health and Culture in Modern Africa is a collection of innovative research on the impact of media and especially new media on health and culture While highlighting topics including civic engagement gender stereotypes and interpersonal communication this book is ideally designed for university students multinational organizations diplomats expatriates and academicians seeking current research on how media health and culture can be appropriated to overcome the challenges that plague the world today **Recent Trends on Type-2 Fuzzy**

Logic Systems: Theory, Methodology and Applications Oscar Castillo, Anupam Kumar, 2023-03-31 This book covers the introduction theory development and applications of type 2 fuzzy logic systems which represent the current state of the art in various domains such as control applications power plants health care image processing mathematical applications etc The book is also rich in discussing different applications in order to give the researchers a flavor of how type 2 fuzzy logic is designed for different types of problems Type 2 fuzzy logic systems are now used extensively in engineering applications for many purposes In simple language this book covers the practical use of type 2 fuzzy logic and its optimization through different training methods Furthermore this book maintains the relationship between mathematics and practical implementations in the real world This book chapter also contains the proper comparisons with available literature work It shows that the presented enhanced techniques have better results This book would serve as a handy reference guide for a variety of readers primarily targeting research scholars undergraduate and postgraduate researchers and practicing engineers working in Type 2 fuzzy logic systems and their applications *Indigenous Experiences of Pregnancy and Birth*

Neufield Hannah Tait,2017-10-01 Traditional midwifery culture customs understandings and meanings surrounding pregnancy and birth are grounded in distinct epistemologies and worldviews that have sustained Indigenous women and their families since time immemorial Years of colonization however have impacted the degree to which women have choice in the place and ways they carry and deliver their babies As nations such as Canada became colonized traditional gender roles were seen as an impediment The forced rearrangement of these gender roles was highly disruptive to family structures Indigenous women quickly lost their social and legal status as being dependent on fathers and then husbands The traditional structures of communities became replaced with colonially informed governance which reinforced patriarchy and paternalism The authors in this book carefully consider these historic interactions and their impacts on Indigenous women s experiences As the first section of the book describes pregnancy is a time when women reflect on their bodies as a space for the development of life Foods prepared and consumed ceremony and other activities engaged in are no longer a focus solely for the mother but also for the child she is carrying Authors from a variety of places and perspectives thoughtfully express the historical along with contemporary forces positively and negatively impacting prenatal behaviours and traditional practices Place and culture in relation to birth are explored in the second half of the book from locations in Canada such as Manitoba Ontario British Columbia the Northwest Territories and Aotearoa The reclaiming and revitalization of birthing practices along with rejuvenating forms of traditional knowledge form the foundation for exploration into these experiences from a political perspective It is an important part of decolonization to acknowledge policies such as birth evacuation as being grounded in systemic racism The act of returning birth to communities and revitalizing Indigenous prenatal practices are affirmation of sustained resilience and strength instead of a one sided process of reconciliation **Communicating**

with Our Families Jill K. Burk,Maryl R. McGinley,Joel S. Ward,2022-07-12 Communicating with Our Families Continuity Interruption and Transformation examines how communication technologies are shaping childhood parenthood and families by exploring topics such as parental loneliness family storytelling family technology rules mindful technology usage multigenerational communication and community The scholars in this volume work from a human communication perspective and use various research modes of inquiry including quantitative qualitative and interpretive methods Perhaps the most significant question implied by our contributors in this volume is whether the introduction of new communication technologies will fundamentally alter familial forms and if those new groupings that emerge will resemble what has been generally assumed for several millennia *Reflexivity in Applied Linguistics* Sal Consoli,Sara Ganassin,2023-01-18 This

edited collection provides research informed guidance on how reflexivity may be practised in applied linguistics research Specifically we promote reflexivity as an essential hallmark of quality research and argue that doing reflexivity confers greater transparency methodological rigour depth and trustworthiness to our scholarly inquiries The collection features perspectives from different sub fields of applied linguistics including intercultural communication language education and

multilingualism and draws on data from a range of settings including language caf s classrooms workplaces and migration and displacement contexts Each chapter follows a unified structure theoretical background context of the empirical study used as a backdrop for the chapter an analysis of how reflexivity played out throughout the study and conclusions which include takeaway points for other researchers This approach allows readers to gain a sound understanding of the challenges and affordances of doing reflexivity in concrete examples of applied linguistics research whilst also gaining guidance on how to nurture and report on researcher reflexivity as this unfolds throughout the lifetime of a project This book will appeal to students and scholars in applied linguistics particularly those with an interest in research methods in the areas of language education multilingualism and intercultural communication
