Survey of Audiology David DeBonis, Constance Donohue, 2024-06-01

For nearly 20 years Survey of Audiology: Fundamentals for Audiologists and Health Professionals has provided both the breadth of an introductory survey of audiology and the depth of a detailed textbook. Inside Drs. David DeBonis and Constance Donohue have combined their years of work in clinical settings and their experience teaching audiology into a textbook intended to give students all the knowledge they'll need in the most accessible and comprehensible format. In this Third Edition, updates have been made to include the latest information on the most current topics in audiology, including cognition and hearing loss, pharmacology, central auditory processing disorders, wireless technology, hearing aid accessibility, tinnitus, genetics, and biotechnology, and noise exposure. New and updated inside the Third Edition: Ethical considerations for audiologists, Auditory Neuropathy Spectrum Disorder (ANSD), Auditory processing disorders, Tinnitus, Evidence-based genetic counseling, The latest hearing aid technology, How to critically review evidence in literature and studies. Included with the text are online supplemental materials for faculty use in the classroom. With its extensive glossary, numerous case examples, chapter abstracts, learning objectives, and questions for discussion, Survey of Audiology is designed to support learning and reinforce key points in every way. The text also works to integrate the humanistic aspects of audiology with the scientific ones into holistic discussions of assessment and intervention. Through this approach, students will learn to always remember that there is a person behind each set of symptoms. While aspiring audiologists will appreciate the depth of Survey of Audiology: Fundamentals for Audiologists and Health Professionals, Third Edition, students of speech-language pathology and other health professions looking for a crash course in audiology will benefit from its readability and wide scope.
