Myint Swe Khine,2013-06-26 The critical analysis of science textbooks is vital in improving teaching and learning at all levels  
in the subject and this volume sets out a range of academic perspectives on how that analysis should be done Each chapter  
focuses on an aspect of science textbook appraisal with coverage of everything from theoretical and philosophical  
underpinnings methodological issues and conceptual frameworks for critical analysis to practical techniques for evaluation  
Contributions from many of the most distinguished scholars in the field give this collection its sure footed contemporary  
relevance reflecting the international standards of UNESCO as well as leading research organizations such as the American  
Association for the Advancement of Science whose Project 2061 is an influential waypoint in developing protocols for  
textbook analysis Thus the book shows how to gauge aspects of textbooks such as their treatment of controversial issues
