Financial Market Bubbles and Crashes Harold L. Vogel,2021-12-17 Economists broadly define financial asset price bubbles as episodes in which prices rise with notable rapidity and depart from historically established asset valuation multiples and relationships Financial economists have for decades attempted to study and interpret bubbles through the prisms of rational expectations efficient markets equilibrium arbitrage and capital asset pricing models but they have not made much if any progress toward a consistent and reliable theory that explains how and why bubbles and crashes evolve and are defined measured and compared This book develops a new and different approach that is based on the central notion that bubbles and crashes reflect urgent short side rationing which means that as such extreme conditions unfold considerations of quantities owned or not owned begin to displace considerations of price

The Planner's Use of Information Hemalata C. Dandekar,2019-08-28 For more than 35 years

planners have depended on *The Planner's Use of Information* to help them address their information needs. While the ability to manage complex information skillfully remains central to the practice of planning, the variety and quantity of information have ballooned in the last two decades. The methods of accessing and handling information, although often ultimately easier and faster, require new technical savvy. At the same time, planners themselves and the constituents they serve have changed. This completely revised and updated third edition of this popular book will serve the new generation of planners who work in a world where social media, cell phones, community embedded development and a changing population have revolutionized the practice of planning. Edited again by Hemalata C Dandekar with chapters by leading experts in data collection, analysis, presentation and management, *The Planner's Use of Information* empowers practitioners to use and address the impacts of twenty first century technologies. The book offers a range of methods for addressing many kinds of information needs in myriad situations. It is an invaluable day to day resource for practicing planners and an ideal classroom text for courses in planning, communication and analytical methods. Illustrations, real life examples, cartoons, exercises, bibliographies and lists of online resources enrich the text. [Financial Market Bubbles and Crashes, Second Edition](#) Harold L. Vogel, 2018-08-16

Economists broadly define financial asset price bubbles as episodes in which prices rise with notable rapidity and depart from historically established asset valuation multiples and relationships. Financial economists have for decades attempted to study and interpret bubbles through the prisms of rational expectations, efficient markets and equilibrium, arbitrage and capital asset pricing models, but they have not made much if any progress toward a consistent and reliable theory that explains how and why bubbles and crashes evolve and can also be defined, measured and compared. This book develops a new and different approach that is based on the central notion that bubbles and crashes reflect urgent short side rationing, which means that as such extreme conditions unfold, considerations of quantities owned or not owned begin to displace considerations of price. **Dynamic Econometrics For Empirical Macroeconomic Modelling** Ragnar

Nymoen, 2019-07-09. For Masters and PhD students in Economics. In this textbook, the duality between the equilibrium concept used in dynamic economic theory and the stationarity of economic variables is explained and used in the presentation of single equations models and system of equations such as VARs, recursive models and simultaneous equations models. The book also contains chapters on exogeneity in the context of estimation, policy analysis and forecasting, automatic computer based variable selection and how it can aid in the specification of an empirical macroeconomic model and finally on a common framework for model based economic forecasting. Supplementary materials and notes are available on the publisher's website. [Handbook of Research on Teacher Education in the Digital Age](#) Niess, Margaret L., Gillow-Wiles, Henry, 2015-08-03. Traditional classrooms are fast becoming a minority in the education field. As technologies continue to develop as a pervasive aspect of modern society, educators must be trained to meet the demands and opportunities afforded by this technology rich landscape. *The Handbook of Research on Teacher Education in the Digital Age* focuses on the needs of

teachers as they redesign their curricula and lessons to incorporate new technological tools Including theoretical frameworks empirical research and best practices this book serves as a guide for researchers educators and faculty and professional developers of distance learning tools Legal-Economic Institutions, Entrepreneurship, and Management Nezameddin Faghih, Ali Hussein Samadi, 2021-04-07 The study of dynamics of institutional change in emerging markets are subjects of great interest in contemporary political economy The dynamics and quality of institutional change can have significant impacts on the long run performance of economies economic growth and development of nations and play a fundamental role in societies It provides a comprehensive understanding of legal economic institutions and sheds light on the way to global peace by producing a better understanding of the dynamics of historical change Topics range from institutional uncertainty hybrid market order and labor market institutions to good governance of institutions and WTO rules as trade institutions as well as entrepreneurship and institutional change in emerging markets and the role of modern technologies This edited volume emphasizes legal economic institutions and the role of management and entrepreneurship on dynamics trends and implications of institutional change in emerging markets Presenting research articles by eminent scholars and experts engaged in education and research who address and discuss the most recent issues in the field they reveal new insights into the dynamics of institutional change for researchers interested in development of new theories and comparative studies especially in the era of emerging markets The book is appealing to a wide range of global audience can serve as a useful reference work in education and research offers innovative and productive discussions and can satisfy scholarly and intellectual interests regarding institutional development and a broad spectrum of its interactions with functioning of markets and economies Making Sense of Statistical Methods in Social Research Keming Yang, 2010-03-25 Making Sense of Statistical Methods in Social Research is a critical introduction to the use of statistical methods in social research It provides a unique approach to statistics that concentrates on helping social researchers think about the conceptual basis for the statistical methods they re using Whereas other statistical methods books instruct students in how to get through the statistics based elements of their chosen course with as little mathematical knowledge as possible this book aims to improve students statistical literacy with the ultimate goal of turning them into competent researchers Making Sense of Statistical Methods in Social Research contains careful discussion of the conceptual foundation of statistical methods specifying what questions they can or cannot answer The logic of each statistical method or procedure is explained drawing on the historical development of the method existing publications that apply the method and methodological discussions Statistical techniques and procedures are presented not for the purpose of showing how to produce statistics with certain software packages but as a way of illuminating the underlying logic behind the symbols The limited statistical knowledge that students gain from straight forward how to books makes it very hard for students to move beyond introductory statistics courses to postgraduate study and research This book should help to bridge this gap **Pre-Service and In-Service Teacher Education:**
