Health

Information in a Changing World W. Bernard Luckenbill, Barbara Froling Immroth, 2010-06-14 This holistic guide explains how school librarians and teachers can successfully integrate relevant health concepts and life skills throughout the curriculum for students K through 12 In the United States convenience food and soft drink based diets increasingly sedentary lifestyles and obesity have become common in youth culture The importance of health education merits integration throughout school curricula unfortunately research shows that many teachers do not feel prepared to teach health issues within their subject areas This book will encourage all librarians and teachers no matter their specific area of instruction to include health lessons in their teaching Health Information in a Changing World Practical Approaches for Teachers Schools and School Librarians provides a complete action plan for librarians and teachers who want to provide better health information to students and their caregivers It contains an extensive discussion of teaching health within curriculum areas such as literature history and biography art science and mathematics industrial technology and agriculture Tips on accessing and evaluating health information in print and electronic media are presented as well as practical suggestions for effective instructional methods including ideas on conducting demonstrations field trips speaker programs and online distance education New findings regarding teaching effectiveness assessment are also presented

Collective and Collaborative Drawing in Contemporary Practice Helen Gørrill, Jill Journeaux, 2018-01-23 Whilst both collective and collaborative drawing is being widely explored internationally both within and beyond educational institutions there is surprisingly little serious research published on the topic This realisation led to the first international Drawing Conversations Symposium accompanied by the Drawn Conversations Exhibition at Coventry University UK in December 2015 The two events drew a strong and global response and brought together a wide range of participants including academics artists researchers designers architects and doctoral students This book considers what happens and how when people draw together either in the form of a collaboration or through a collective process The contributions here serve to establish the field of collective and collaborative drawing as distinct from the types of drawing undertaken by artists designers and architects within a professional context The volume covers conversations through the act of drawing collaborative drawing drawing communities and alternative drawing collaborations

The Chinese Communist Youth League Konstantinos Tsimonis, 2025-10-01 The Chinese Communist Youth League is the largest youth political organization in the world with over 80 million members Former Chinese President Hu Jintao was a firm supporter of the League and believed that it could play a bigger role in winning the hearts and minds of Chinese youth by actively engaging with their interests and demands Accordingly he provided the League with a new youth work mandate to increase its capacity for responsiveness under the slogan keep the Party assured and the youth satisfied This original investigation of the hitherto unexamined organization uses a combination of interviews surveys and ethnography to explore how the League implemented Hu s mandate at both local and national levels exposing the contradictory nature of some of its campaigns By doing so it also sheds light on the reasons for Xi Jinping

s turn against the League during his first term in office The Chinese Communist Youth League Juniority and Responsiveness in a Party Youth Organization develops the original concept of juniority to capture the complex ways that generational power is institutionalized alienating young people from official political processes with significant implications for China s political development The book will be of interest to researchers and students of Chinese politics as well as to scholars of comparative youth politics and sociology
