**Teaching Writing** Jean Gudaitis Tarricone,1995 Direct Instruction: A practitioner's handbook Kurt

Engelmann,2024-04-05 Direct Instruction DI is a powerful instructional approach designed to ensure that students master critical skills and content required for more advanced learning Although DI has existed since the late 1960s there are many common misconceptions about the approach its potential to enhance student learning and the way its proper implementation facilitates students academic success This book provides a systematic explanation of the Direct Instruction methodology and DI program design as it outlines a roadmap for teachers and school leaders on how to implement DI successfully Divided into three main sections the first section describes DI as a coherent and complete teaching and learning system that contrasts DI with lower case di or explicit instruction which focuses on effective instructional delivery techniques The second section provides a step by step guide to implementing DI The third section is devoted to cautions about implementing DI This section reinforces the notion that the physical possession of the DI curricula does not by itself lead to student success Those who adopt DI need to ensure that it is implemented with fidelity for the benefit of their students who are reliant on them to provide them with the means to achieve their academic potential so they may lead healthy productive lives Reviewing

Hochman,Natalie Wexler,2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is

as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content
