Professional Development for Math and Science ,1997 **Fostering Children's Mathematical Power** Arthur Baroody,Arthur J. Baroody,Jesse L.M. Wilkins,Ronald T. Coslick,1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children s mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to

foster mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a meaningful manner this approach promotes children's mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics

Norms and Nobility David V. Hicks, 2024-08-06 A reissue of a classic text *Norms and Nobility* is a provocative reappraisal of classical education that offers a workable program for contemporary school reform David Hicks contends that the classical tradition promotes a spirit of inquiry that is concerned with the development of style and conscience which makes it an effective and meaningful form of education Dismissing notions that classical education is elitist and irrelevant Hicks argues that the classical tradition can meet the needs of our increasingly technological society as well as serve as a feasible model for mass education

Gratitude in Education Kerry Howells, 2012-07-30 Teachers at all levels of education will find this book practical and inspiring as they read how other educators have engaged with challenges that reveal different dimensions of gratitude and how some have discovered its relevance in gaining greater resilience improved relationships and increased student engagement In the first comprehensive text ever written that is solely dedicated to the specific relevance of gratitude to the teaching and learning process Dr Howells pioneers an approach that accounts for both dilemmas and possibilities of gratitude in the midst of teachers busy and stressful lives She takes a contemporary and philosophical view of the notion of gratitude and goes beyond its conceptualisation simply from a religious or positive psychology framework Exploring real situations with teachers school leaders students parents academics and pre service teachers *Gratitude In Education A Radical View* examines many of the complexities encountered when gratitude is applied in a variety of secular educational environments
