Routledge International Handbook of Masculinity Studies Lucas Gottzén, Ulf Mellström, Tamara Shefer, 2019-11-20 The Routledge International Handbook of Masculinity Studies provides a contemporary critical and scholarly overview of theorizing and research on masculinities as well as emerging ideas and areas of study that are likely to shape research and understanding of gender and men in the future The forty eight chapters of the handbook take an interdisciplinary approach to a range of topics on men and masculinities related to identity sex sexuality culture aesthetics technology and pressing social issues The handbook's transnational lens acknowledges both the localities and global character of masculinity A clear message in the book is the need for intersectional theorizing in dialogue with feminist queer and sexuality studies in making sense of men and masculinities Written in a clear and direct style the handbook will appeal to students teachers and researchers in the social sciences and humanities as well as professionals practitioners and activists *From Boys to Men* Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has

raised a concern that boys and men should be included in research and intervention work on gender equality and transformation. As a result, academics with a background of many years of work in women's and gender studies undertook a research project focusing on the construction of masculinities among young men. *From Boys to Men* was born out of this project. This highly original work arises from the conference *From Boys to Men* held in January 2005. It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally. The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa. Acknowledging that there are multiple versions of masculinity and that some are more valued than others, this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time. *From Boys to Men* provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males, inform community-based interventions and facilitate theory building. This impressive collection of research on men, boys and masculinities would have been impossible just a generation ago. It took the worldwide impact of the women's liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system. Raewyn Connell, Professor at the University of Sydney, author of *Masculinities* 1995. Given the extant paucity of research and literature on masculinities, this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies. The editors of the volume should be commended for this timely, well-constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally. Norman Duncan, Chair of Psychology, University of the Witwatersrand. Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV/AIDS. This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade. The volume usefully opens up new avenues of analysis, telling us that masculinities are always in process, under negotiation, contradictory, forever in crisis. Vasu Reddy, Gender and Development Unit, Human Sciences Research Council.

Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 Masculinity in Contemporary New York Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and or patriarchal father the impact of homosocial relations on the everyday performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in

gender studies and contemporary American fiction **Global Agenda in Social Sciences** İsmail Şiriner, Murat Aydın, 2021-12-22 **The New Politics of Masculinity** Fidelma Ashe, 2007-11-30 Explores the new politics of masculinity and gender identity examining the contemporary discourses of masculinity by focusing on male pro feminist movements and locating them within the context of feminist debates **Gender Issues and the Library** Carol Smallwood, Lura Sanborn, 2017-11-02 With the legalization of same sex marriage and the explosion of LGBTQ news coverage in recent years gender studies is a subject of intense interest in popular media and a part of the curriculum at many colleges Libraries realize the importance of supporting the field yet many have difficulty finding resources and programming ideas This book provides case studies and a range of innovative solutions for better meeting patron needs Twenty seven chapters are arranged into sections covering Research and Library Instruction History and Herstory Programming Collections and Beyond and Resources **Rethinking Transnational Men** Jeff Hearn, Marina Blagojević, Katherine Harrison, 2013-07-18 The world is becoming more transnational This edited collection examines how the immense transnational changes in the contemporary world are being produced by and are affecting different men and masculinities It seeks to shift debates on men masculinities and gender relations from the strictly local and national context to much greater concern with the transnational and global Established and rising scholars from Asia Australia Europe and North America explore subjects including economies and business corporations sexualities and the sex trade information and communication technologies and cyberspace migration war the military and militarism politics nationalism and symbolism and image making Wounded Masculinities Valeria Quaglia, 2023-12-05 This book contributes to the emerging field of men s health studies delving into how men incorporate adapt negotiate or reject health care practices to perform masculinities in social interactions By moving beyond the simplistic association between men masculinity and the adoption of risky or unhealthy practices this book draws from recent critical perspectives on the study of men s health seeking to challenge and problematize the relationship between masculinities and health The text presents original empirical findings derived from qualitative and digital research examining the different ways in which men re negotiate their masculinities after the onset of a chronic illness focusing on diabetes as a strategic case study Living with a chronic illness implies that those gender practices that are usually taken for granted suddenly become unachievable and impose a reconfiguration of the masculine self as well as a negotiation of the very meaning of masculinity The volume aims to critically examine this interactive process of re negotiation while also reflecting on men masculinities and their health on a more general level This book serves as a valuable resource for students and scholars in social sciences working on the intersection of gender and health as well as for health professionals seeking a deeper understanding of the connection between men gender and health The Man Question Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view

men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men s privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men s treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men s experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination
