Matthew's Account of the Massacre of the Innocents in Light of its Reception History Sung J. Cho, 2021-10-21 Sung Cho addresses the seeming contradiction of Herod the Great's massacre in Matthew 2 16 18 questioning why such a tragedy had to occur why it was included in the good news of Jesus and what connection it has to ancient prophecies In creating a reception history of the Massacre of the Innocents Cho progresses through two millennia worth of interpretation and depiction to highlight key works for discussion Beginning with a close reading of Matthew 2 16 18 Cho moves to analyse depictions of the tragedy in the Early Patristic Tradition from the sixth century to the early modern period and thus to the present day complete with an examination of visual interpretations of the massacre Cho's examination provides a positive step to understanding the depths of human suffering with the help of many diverse perspectives Questions and Answers in the English Courtroom (1640-1760) Dawn Archer, 2005-06-22 This book belongs to the rapidly growing field of historical pragmatics More specifically it aims to lend definition to the area of historical sociopragmatics It seeks to enhance our understanding of the language of the historical courtroom by documenting changes to the discursive roles of the most active participant groups of the English courtroom e.g. the judges lawyers witnesses and defendants in the period 1640 1760 Although the primary focus is on questions and answers this book also analyses the use of eliciting and non eliciting devices e.g. requests and commands as a means of demonstrating similarities and differences over time Particular strengths of this work include the study of different types of trial making the results potentially more representative of the courtroom in general and the innovative discourse analytic approach which blends corpus methodology and sociopragmatic analysis thereby enabling the quantitative analysis of functional phenomena **El-Hi Textbooks & Serials in Print, 2003**, 2003

Jacob Spon Roland Étienne, Jean-Claude Mossière, 1995 American Book Publishing Record, 1999 **Public Procurement and the EU Competition Rules** Albert Sánchez Graells, 2015-06-25 Public procurement and competition law are both important fields of EU law and policy intimately intertwined in the creation of the internal market Hitherto their close connection has been noted but not closely examined This work is the most comprehensive attempt to date to explain the many ways in which these fields often considered independent of one another interact and overlap in the creation of the internal market This process of convergence between competition and public procurement law is particularly apparent in the 2014 Directives on public procurement which consolidate the principle of competition in terms very close to those advanced by the author in the first edition This second edition builds upon this approach and continues to ask how competition law principles inform and condition public procurement rules and whether the latter in their revised form are adequate to ensure that competition is not distorted The second edition also deepens the analysis of the market behaviour of the public buyer from a competition perspective Proceeding through a careful assessment of the general rules of competition and public procurement the book constantly tests the efficacy of these rules against a standard of the proper functioning of undistorted

competition in the market for public procurement It also traces the increasing relevance of competition considerations in the case law of the Court of Justice of the European Union and sets out criteria and recommendations to continue influencing the development of EU Economic Law **Electrochemistry. Blake's Agitation Steven Goldsmith,2013-03-15 Since the Romantic period the critical thinker s enthusiasm has served to substantiate his or her agency in the world Blake s Agitation is a thorough and engaging reflection on the dynamic forward moving and active nature of critical thought Steven Goldsmith investigates the modern notion that there s a fiery feeling in critical thought a form of emotion that gives authentic criticism the potential to go beyond interpreting the world By arousing this critical

excitement in readers and practitioners theoretical writing has the power to alter the course of history even when the only evidence of its impact is the emotion it arouses Goldsmith identifies William Blake as a paradigmatic example of a socially critical writer who is moved by enthusiasm and whose work in turn inspires enthusiasm in his readers He traces the particular feeling of engaged dynamic urgency that characterizes criticism as a mode of action in Blake's own work in Blake scholarship and in recent theoretical writings that identify the heightened affect of critical thought with the potential for genuine historical change Within each of these horizons the critical thinker's enthusiasm serves to substantiate his or her agency in the world supplying immediate embodied evidence that criticism is not one thought form among many but an action of consequence accessing or even enabling the conditions of new possibility necessary for historical transformation to occur The resulting picture of the emotional agency of criticism opens up a new angle on Blake's literary and visual legacy and offers a vivid interrogation of the practical potential of theoretical discourse
