**La Peinture Française. De Le Nain à Fragonard. French Painting. From Le Nain to Fragonard. (Translated by James Emmons. With Illustrations.** Jacques THUILLIER (and CHÂTELET (Albert) Assistant aux Musées Nationaux.), Albert CHATELET (Assistant aux Musées Nationaux.), James EMMONS, 1964      **La peinture française** Albert (Mathematiker) Châtelet, 1964      *La peinture française*, 1964      **Fragonard and the Fantasy Figure** Melissa Percival, 2017-07-05 A fresh interpretation of the group of Fragonard's paintings known as the figures de fantaisie Fragonard and the Fantasy Figure Painting the Imagination reconnects the fantasy figures with neglected visual traditions in European art and firmly situates them within the cultural and aesthetic contexts of eighteenth century France Prior scholarship has focused on the paintings connections with portraiture whereas this study relocates them within a tradition of fantasy figures where resemblance was ignored or downplayed The book defines Fragonard as a painter of the imagination and foregrounds the imaginary at a time when Enlightenment rationalism and Classical aesthetics contrived to delimit the imagination The book unravels scholarly writing on these Fragonard paintings and examines the history of the fantasy figure from early modern Europe to eighteenth century France Emerging from this background is a view of Fragonard turning away from the academically sanctioned invention towards more playful variants of the imaginary fantasy and caprice Melissa Percival demonstrates how fantasy figures engage both artists and viewers allowing artists to unleash their imagination through displays of virtuosity and viewers to use their imagination to explore the paintings unusual juxtapositions and humour      *LA PEINTURE FRANCAISE DE LE NAIN A FRAGONARD*, 1964      **France in the Golden Age** Pierre Rosenberg, Metropolitan Museum of Art (New York, N.Y.), 1982      **La peinture française de Le Nain à Fragonard** Jacques Thuillier, 1964      **Fragonard** Pierre Rosenberg, 1988      **La Peinture française....** Jean Leymarie, 1964      *Art and Architecture in France, 1500-1700* Anthony Blunt, Richard Beresford, 1999-01-01 The sixteenth and seventeenth centuries in France were an epoch of spectacular artistic activity exemplified by the chateaux of the Loire valley the palace of Versailles the paintings of Poussin and Claude and the sculpture of Coysevox which echo the political and cultural importance of France and the Sun King Anthony Blunt presents major artists and their principal works chronologically provides an overview of the main projects of the period and of the artistic personalities behind them and clearly sets the historical context This new edition of one of the classics of the Pelican History of Art series has been revised and updated with color illustrations and a new bibliography      *French Painting in the Seventeenth Century* Alain Mérot, 1995-01-01 Recent studies and exhibitions combined with the discovery of work by hitherto little known artists have enabled Merot to take a fresh look at the period and to suggest a new configuration The great names of the period Poussin Vouet Le Sueur de La Tour Mignard are located in relation to other developments Merot includes discussion of the impact of contemporary literature and political philosophical and social influences The foundation of the Royal Academy of Painting in 1648 and the influence of Mazarin on artistic developments are considered with other issues of

status patronage and connoisseurship The book provides a panorama of the period the text is profusely illustrated in colour and accompanied by a comprehensive bibliography

**Esthetics of the Moment** Thomas M. Kavanagh, 2015-11-16 The literature and art of the French Enlightenment is everywhere marked by an intense awareness of the moment The parallel projects of living in representing and learning from the moment run through the Enlightenment's endeavors as tokens of an ambition and a heritage imposing its only and ultimately impossible cohesion In this illuminating study Thomas M Kavanagh argues that Enlightenment culture and its tensions contradictions and achievements flow from a subversive attention to the present as present freed from the weight of past and future Examining a wide sweep of literary and artistic culture Kavanagh argues against the traditional view of the Age of Reason as one of coherent recognizable ideology expressed in a structured narrative form In literature he analyzes the moment at work in the inebriating lightness of Marivaux's repartee the new found freedom of Lahontan's and Rousseau's ideals of a consciousness limited to the present Diderot's championing of Epicurean epistemology Graffigny's portrayal of abrupt cultural displacement and Casanova's penchant for chance's redefining moment The moment in art theory and practice is explored in such forms as de Piles's defense of color Du Bos's foregrounding of perception Watteau's indulgence in a corporeal present Chardin's dismantling of mimesis and Boucher's and Fragonard's thematics of desire

**Representing Belief** Michael Paul Driskel, 2010-11-01 Representing Belief provides a detailed discussion and analysis of the forms and meanings in religious art of nineteenth century France This genre usually assigned minimal importance by writers on the period turns out to occupy a central place in the cultural history of the era touching the core of the century's conflict between tradition and modernity science and faith ultramontanism and naturalism Although it was generally assumed that this kind of art was of little importance in the evolution of modern painting Driskel demonstrates that in reality it played a crucial role Many of the artists discussed are firmly installed in the present canon Delacroix Ingres Manet Gauguin while others Flandrin Orsel Gleyre Cazin were major figures in their own time though largely forgotten today Writing from an interdisciplinary perspective and employing concepts derived from structuralist and poststructuralist theory Driskel moves beyond simple formalism to restore a category of once important works to a meaningful context thereby offering others a model by which to discuss and interpret these paintings Carefully charting the genealogies of hieraticism and naturalism he demonstrates that a dramatic shift occurred in the 1860s and 1870s as naturalism gained acceptance among ultramontanes and the hieratic mode began to

attract the interest of adherents to the belief system of modernism Representing Belief is the first book to situate this art in its social and historical contexts and to approach it from this point of view      **General Catalogue of Printed Books** British Museum.
