Kosik, M.D., Ellen Clegg, 2010-04-27 The solution research neurologist Kosik and medical journalist Clegg propose reads like  
the opening round in what they clearly hope will become a national dialogue about optimizing treatment for people with  
dementia including Alzheimer s disease Cogent thorough and convincing BooklistAs the Baby Boomer generation moves into  
the ranks of the elderly in the next decade or two the number of Alzheimer cases expected to develop will be staggering  
Since current medical care cannot offer a cure and even significantly effective treatment is at least ten years away there is a  
pressing need for novel solutions to address the multifaceted issues raised by this devastating disease This book offers a  
measure of hope and coping strategies for people facing Alzheimer s now or in the future Authors Kenneth S Kosik MD a  
neurologist and a leading Alzheimer s researcher and experienced healthcare journalist Ellen Clegg propose the creation of  
community centers devoted to Alzheimer s Here patients and their families could access programs of care treatment and  
most importantly prevention outside of the traditional medical setting They outline a bold vision of one stop centers that  
would provide expertise and reliable information on a range of topics pharmaceutical developments dietary regimens  
physical and cognitive exercise programs that may help to slow the disease process and palliative measures to reduce  
suffering Most important the centers they describe would take a family oriented personalized approach to care and  
prevention creating an atmosphere conducive to adult learning and facilitating personal growth in areas that patients have  
enjoyed over a lifetime including the arts dance socializing and a host of other possibilities The authors explain why the  
current healthcare system is poorly equipped to deal with Alzheimer patients why the standard medical model is  
inappropriate for cognitive disorders how market economics stymies physician creativity and how new initiatives that work  
outside the existing system could go a long way toward providing the help that is lacking today For people prepared to take  
action now to prevent Alzheimer s as well as healthcare professionals seeking ways to help their patients this book is a must  
read Kenneth S Kosik MD Santa Barbara CA is the Harriman Chair in Neurosciences co director of the Neuroscience  
Research Institute and professor in the Department of Molecular Cellular and Developmental Biology at the University of  
California Santa Barbara Previously Dr Kosik was professor of neurology and neuroscience at Harvard Medical School Ellen  
Clegg Boston MA is Managing Editor for Communications Platforms at the Broad Institute of MIT and Harvard a genetic
