INNER WORK: USING DREAMS AND ACTIVE IMAGINATION FOR PERSONAL GROWTH. ROBERT A. (b. 1921) JOHNSON, 1986 *Jung on Active Imagination* C. G. Jung, 2015-02-17 All the creative art psychotherapies art dance music drama poetry can trace their roots to C G Jung s early work on active imagination Joan Chodorow here offers a collection of Jung s writings on active imagination gathered together for the first time Jung developed this concept between the years 1913 and 1916 following his break with Freud During this time he was disoriented and experienced intense inner turmoil he suffered from lethargy and fears and his moods threatened to overwhelm him Jung searched for a method to heal himself from within and finally decided to engage with the impulses and images of his unconscious It was through the rediscovery of the symbolic play of his childhood that Jung was able to reconnect with his creative spirit In a 1925 seminar and again in his memoirs he tells the remarkable story of his experiments during this time that led to his self healing Jung learned to develop an ongoing relationship with his lively creative spirit through the power of imagination and fantasies He termed this therapeutic method active imagination This method is based on the natural healing function of the imagination and its many expressions Chodorow clearly presents the texts and sets them in the proper context She also interweaves her discussion of Jung s writings and ideas with contributions from Jungian authors and artists *Awakening Through Dreams* Nigel Hamilton, 2018-05-08 Most Western approaches to dreams are limited to a psychological paradigm Building on Jung s work which was heavily influenced by the transformative model of alchemy a new multidimensional approach to the process of human transformation through dreams has been developed which recognises the interrelationship of the psychological and the spiritual and works with the mirroring body in service of both In the approach presented here dreams are seen as a mixture of worldly impressions and expressions of our individual spirit which is trying to speak to us through the metaphors and narrative of our dreams In this way the spiritual comes through the psychological dimension Though it may seem to be a contradiction our dreams hold the key to our awakening and by actively engaging with them we can unlock their potential for initiating and facilitating our own unfoldment This book is about recognising this process when it occurs in dreams and how to work with them in the service of our growth and self realisation *A Geography of Dream Work and Art Therapy* Monica Carpendale, 2021-04-06 This book discusses dream work through the lens of art therapy theory It is written in a personal voice from a perspective of discovery

and curiosity toward the unknown This territory is metaphorically explored in relationship to geography and landscape It provides a structural foundation for dreamwork within a relational art therapy approach based on phenomenological and existential world views Approaches to dreamwork include psychoanalytic theory depth psychology gestalt theory and phenomenology Poetry theory and praxis are interwoven demonstrating the process for creatively exploring dreams and artwork Dreamer and artist are respected in the journey discovering new horizons and footpaths that might be revealed and encouraged to make and remake their own maps along the way The intention of this writing is to bring a felt sense of an integrated way of exploring dreams honouring the courage it takes to explore the dream s terrain *Archetypal Coaching* Alba Carod,2025-08-25 Archetypal Coaching offers a transformative approach to personal growth blending ancient Greek astrological foundations and dream work with modern coaching techniques somatic awareness and Jungian active imagination Astrological archetypes illuminate the roots of struggles and highlight potential resources while dreams act as a focused lens bringing attention to issues that require immediate exploration The approach explored within this book emphasizes interactive dialogue with archetypes and symbols using embodied imagination and somatic awareness to guide clients in creating a personal symbol that embodies their inner process and potential echoing Jung s concept of the transcendent function Supported by six in depth case studies and numerous examples the author outlines a holistic framework for integrating astrology and dream work into coaching emphasizing personal growth and treating archetypes as dynamic tools for creativity and self discovery This book will appeal to established coaches counselors and therapists interested in integrating archetypal work into their practice as well as students of Jungian psychology coaching art therapy astrology and related fields Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Rowan,2013-04-15 We all have had the experience of being divided of being in two minds about something one part of us wants to do this another wants to do that Subpersonalities is the first book to do justice to the phenomenon as a normal feature of our psychological life John Rowan argues that we all have a number of personalities that express themselves in different situations and that by recognising them we can come to understand ourselves better and improve our relationships with others Anyone reading this book will run the risk of making quite new discoveries about themselves In looking at where subpersonalities come from John Rowan explores the work of psychologists and psychotherapists from Jung and Freud onwards and adds insights gained from his own work as a therapist and counsellor He relates the journey of discovery that he himself undertook in search of his own subpersonalities The result is a fascinating book that challenges our accepted view of ourselves and provides an intriguing picture of how human beings work and why communication between them so often goes wrong Subpersonalities is a book for anyone interested in their own personality and how it helps or hinders their everyday life Dream ESP Carl Llewellyn Weschcke,2025-08-05 Dreams fascinate the mind and the imagination and now those dreams can be harnessed to enrich daily life through the power of intentional dreaming Written in part by Louis Culling and completed by Carl Llewellyn Weschcke Dream ESP is the key to creating a partnership between your subconscious and conscious self Using psychic and spiritual methods this comprehensive guide reveals the process of Prophetic Causal

This is by far the most wise and thought provoking book on menopause that I have ever read It is must reading for every woman who dares to meet the challenges of menopause fully and consciously Christiane Northrup M D This volume presents a holistic theoretical framework for understanding menopause as a major developmental event in women s lives Rather than an unpleasant phase to be endured or alleviated Marian Van Eyk McCain views menopause as an empowering experience that women can use for personal growth Artfully interweaving her research years of clinical experience and her personal perceptions of menopause to create an inspiring new vision of the change of life She goes well beyond a discussion of hormones and hot flashes to uncover the deep emotional and spiritual significance of this time in women s lives This book is not only about change on a personal or physical level but in society as well McCain lays out historical and cross cultural

beliefs about menstruation and menopause and the attitudes surrounding them from taboos to reverence and points out that in our modern society women most often either try to ignore or make it through this essential period of womanhood in order to compete in a man's world on male terms. In tune with recent feminist thought the author says there is a new womanpower emerging which means that it is time for women to honor their natural cycles. There is no other book that combines the insights, inspiration, and wealth of information contained in this work. It is an important book for the alternative minded baby boom generation who are seeking new ways to approach middle age.

A Guided Tour of the Collected Works of C. G. Jung Robert H. Hopcke, 2013-02-05. The writings of C. G. Jung himself are the best place to read about all his main ideas, but where to start when Jung's Collected Works run to more than eighteen volumes? Robert H. Hopcke's guide to Jung's voluminous writings shows exactly the best place to begin for getting a handle on each of Jung's key concepts and ideas, from archetypal symbols to analytical psychology to UFOs. Each chapter explains one of Jung's principal concerns, then directs the reader where to read about it in depth in the Collected Works. Each chapter includes a list of secondary sources to approach for further study, which the author has updated for this edition to include books published in the ten years since the Guided Tour's first appearance.

Soulcraft Bill Plotkin, 2010-10-05. Since 1980, depth psychologist Bill Plotkin has been guiding women and men into the wilderness, the redrock canyons and snow-crested mountains of the American West, but also into the wilds of the soul. He calls this work soulcraft. There's a great longing in all people to uncover the secrets and mysteries of our individual lives, to find the unique gift we were born to bring to our communities and to experience our full membership in the more-than-human world. This journey to soul is a descent into layers of the self much deeper than personality, a journey meant for each one of us, not just for the heroes and heroines of mythology. A modern handbook for the journey, Soulcraft is not an imitation of indigenous ways, but a contemporary, nature-based approach born from wilderness experience, the traditions of Western culture, and the cross-cultural heritage of all humanity. Filled with stories, poems, and guidelines, Soulcraft introduces over 40 practices that facilitate the descent to soul, including dreamwork, wilderness vision, fasts, talking across the species boundaries, council, self-designed ceremony, nature-based shadow work, and the arts of romance, being lost, and storytelling.
