Diseño de movimiento: la práctica de animación como generadora de conocimiento Jesús Alejandro Guzmán Ramírez,2023-08-08 Las reflexiones de este libro nacen de la preocupación sobre las dificultades y limitaciones en la producción y en las posibilidades e intenciones de desarrollo que se presentan en Colombia en el campo de la animación durante los últimos años evidenciadas y experimentadas de manera directa a través del ejercicio inmersivo que el autor ha tenido como animador y docente del rea así mismo de la certeza acerca de la animación como insumo de un proceso de diseño capaz de conformar y consolidar conocimiento Los acercamientos a las oportunidades de capacitación producción y enseñanza en el campo suscitan en este texto profundos cuestionamientos sobre las dinámicas que se emplean en las empresas y estudios del país en relación con los productos generados versus las intenciones iniciales de los realizadores Por eso se propone una mirada reflexiva de la animación como un campo interdisciplinario derivado del movimiento en el que la práctica va más allá de la experticia técnica y el hacer es una manera de construir cultura y conocimiento en sí mismo
