The Consortium for Improving Agriculture-based Livelihoods in Central Africa (CIALCA) has set up a research-for-development platform in various mandate areas in DR Congo, Burundi and Rwanda, aiming to identify improved production, market and nutrition options and facilitating the access for development partners to these options. This platform is supported by capacity building, multi-stakeholder dialogue and monitoring and evaluation efforts. The conference facilitated by CIALCA aimed to: i) take stock of the state of the art in agricultural intensification in the highlands of SSA and ii) chart the way forward for agricultural research for development in the humid highlands of SSA and more specifically in the recently launched Humidtropics Consortium Research Programme through keynote oral and poster presentations and strategic panel discussions. *Whitaker's Book List*, 1991 *Soil Science and Management-Lab Manual Instructor Guide 5e* Plaster, 2008-06-01 *Subsurface Characterization and Monitoring Techniques: The vadose zone, field screening and analytical methods, appendices C and D*, 1993 **Soil Science and Management**, 2014 *Conservation of Architectural Heritage* Antonella Versaci, Hocine Bougdah, Natsuko Akagawa, Nicola Cavalagli, 2022-03-01 This book focuses on the management and conservation of architectural heritage with the aim of increasing awareness about the value of such conservation and of saving what is left of history, which in turn rewards societies by supporting the tourism industry, generating economic return and preserving communities' identities.
