## **Goats In Trees Multilingual Edition:**

**Narrative Development in a Multilingual Context** Ludo Verhoeven, Sven Strömqvist, 2001-12-31 In this volume the results of a number of empirical studies of the development of narrative construction within a multilingual context are presented and discussed. It is explored what operating principles underlie the process of narrative production in L1 and L2. Developmental relations between form and function will be studied across a broad range of functional categories such as temporality, perspective, connectivity and narrative coherence. Moreover, a variety of language contact situations is considered with broad variation in the typological distances between the languages in order to enable cross linguistic comparison. The analysis of learner data in various cross linguistic settings may thus offer new information on the role of the structural properties of unrelated languages on the process of narrative acquisition. In the present volume an attempt is also made to find out how transfer from one language to the other is facilitated. Finally, the effects of input on narrative construction in children's first and second language are examined in several studies.

**Children's Multilingual Literacy** Pauline Harris, Cynthia Brock, Elspeth McInnes, Bec Neill, Alexandra Diamond, Jenni Carter, Ufemia Camaitoga, Meresiana Krishna, Eleni Giannakis, 2020-10-22 This book offers a comprehensive report on a three year cross cultural critical participatory action research study conducted in children's homes and communities in Fiji. This project contributed to building sustainable local capacity in communities without access to early childhood services so as to promote preschool children's literacy development in their home languages and English. The book includes rich descriptions of the young children's lived multilingual literacy practices in their home and community contexts. This work advances research based practices for fostering young children's multilingual literacy and building community capacity in a post colonial Pasifika context. Further, it shares valuable insights into processes and complexities that are inherent to multiliteracy and cross cultural research.

**The Weaponizing of Language in the Classroom and Beyond** Kisha C. Bryan, Luis Javier Pentón Herrera, 2023-12-04 In this edited volume, language weaponization or the weaponization of language is used to describe the process in which words, discourse and language in any form can be used to inflict harm on others. The term harm is of vital importance because it refers to how specific groups of people are affected by ideologies and practices that normalize inequity and injustice in their environments. The contributions in this book explore how language ideologies, practices and policies can physically, emotionally, socially and/or economically disadvantage or harm minoritized individuals as well as their cultures and languages.

**Language Impairment in Multilingual Settings** Sharon Armon-Lotem, Kleanthes K. Grohmann, 2021-11-15 COST Action IS0804 Language Impairment in a Multilingual Society Linguistic Patterns and the Road to Assessment aimed to profile bilingual specific language impairment (bSLI) by establishing a network for research on the linguistic and cognitive abilities of bilingual children with SLI across different migrant communities. A battery of tools for Language Impairment Testing in Multilingual Settings (LITMUS) was designed within the Action to achieve these aims, including the Parental

Bilingual Questionnaire the Sentence Repetition Task the Crosslinguistic Lexical Tasks the Multilingual Assessment Instrument for Narratives and two nonword repetition tasks that are not language specific The chapters in this volume present research on one or more of the LITMUS tasks in bilingual children with typical language development and on use of the LITMUS testing battery for identifying possible language impairment The work presented here will be of interest for researchers and clinicians alike and have profound impact in our understanding of bilingual language development and impairment

**Language, Literature and Culture in a Multilingual Society** Ozo-mekuri Ndimele, Mustapha Ahmad, 2016-12-14 The papers here were selected from presentations made at the 24th Annual Conference of the Linguistic Association of Nigeria LAN which held at Bayero University Kano The book contains seventy seven 77 papers addressing various issues in linguistics literature and cultures in Nigeria The book is organized into four sections as follows Section One Language and Society Section Two Applied Linguistics Section Three Literature Culture Stylistics and Gender Studies and Section Four Formal Linguistics

Developing Narrative Comprehension Ute Bohnacker, Natalia Gagarina, 2020-12-15 Comprehension of texts and understanding of questions is a cornerstone of successful human communication Whilst reading comprehension has been thoroughly investigated in the last decade there is surprisingly little research on children's comprehension of picture stories particularly for bilinguals This can be partially explained by the lack of cross culturally robust cross linguistic instruments targeting early narration This book presents an inference based model of narrative comprehension and a tool that grew out of a large scale European project on multilingualism Covering a range of language settings the book uses the Multilingual Assessment Instrument for Narratives to answer the question which narrative comprehension skills bilingual children can be expected to master at a certain age and explores how such comprehension is affected or not affected by linguistic and extra linguistic factors Linking theory to method the book will appeal to researchers in linguistics and psychology and graduate students interested in narrative multilingualism and language acquisition
