Understanding Jewish Theology Jacob Neusner, 2001 Explores the religious experience of Judaism through the perceptions and teachings of ordinary Jews and the creative elite **Spiritual Radical** Edward K. Kaplan, 2007-01-01 This ambitious book explores the relationship between time and history and shows how an appreciation of long term time helps to make sense of the past For the historian time is not an unproblematic given but as for the physicist or the philosopher a means to understanding the changing patterns of life on earth The book is devoted to a wide ranging analysis of the way different societies have conceived and interpreted time and it develops a theory of threefold roles of continuity gradual change and revolution that together form a braided history Linking the interpretative chapters are intriguing brief expositions on time travel time cycles time lines and time pieces showing readers the different ways in which human history

has been located in time In its global approach the book is part of the new shift towards big history in which traditional period divisions are challenged in favour of looking again at the entire past of the world from start to end The approach is thematic The result is a view of world history in which outcomes are shown to be explicable once they happen but not necessarily predictable before they do This book will inform the work of historians of all periods and at all levels and contributes to the current reconsideration of traditional period divisions such as Modernity and Postmodernity which the author finds outmoded

respond to a God who is in search of human beings In this book Harold Kasimow clarifies the meaning of Heschel's path to God by devoting one chapter to each of the three aspects of this path Using this path to God in its three aspects as an organizing principle this book illustrates how Heschel's thought presents a balance between the rational and mystical poles of the Jewish tradition A careful content analysis of his thinking reveals that Heschel is an authentic Jewish voice who presents an accurate Jewish theology The first chapter is devoted to the Hasidic influence on Heschel which Kasimow feels is most important for understanding Heschel's thought The final chapter focuses on Heschel's unique attitude toward Asian religious traditions which are becoming critical for authentic religious dialogue today

Around the Shabbat Table Aryeh Ben David, 2000 The three Shabbat meals offer an opportunity to think about life and connect with

others However despite our best intentions the lack of time and sufficient resources may preclude in depth grappling with more significant and meaningful issues Around the Shabbat Table addresses this problem Its goal is to serve as a springboard for more personally stimulating and meaningful Shabbat conversations Each unit can be read directly at the Shabbat table and no prior knowledge or preparation is necessary The ideas presented are designed for Jewish adults of all backgrounds and religious denominations They reflect a philosophy that the Torah belongs to and should be accessible to all Jews whatever they think or believe wherever they may be *Judaism and the Visual Image* Melissa Raphael,2009-02-19 The widespread assumption that Jewish religious tradition is mediated through words not pictures has left Jewish art with no significant role to play in Jewish theology and ethics Judaism and the Visual Image argues for a Jewish theology of image that among other things helps us re read the creation story in Genesis 1 and to question why images of Jewish women as religious subjects appear to be doubly suppressed by the Second Commandment when images of observant male Jews have become legitimate even iconic representations of Jewish holiness Raphael further suggests that devout beholding of images of the Holocaust is a corrective to post Holocaust theologies of divine absence from suffering that are infused by a sub theological aesthetic of the sublime Raphael concludes by proposing that the relationship between God and Israel composes itself into a unitary dance or moving image by which each generation participates in a processive revelation that is itself the ultimate work of Jewish art Creation and Evolution Lenn E. Goodman,2010-04-05 Can religion survive Darwinism Do scientists entering the lab or heading for the field have to bracket or reject outright all religious commitments and convictions Trenchantly laying out the evidence for natural selection and carefully following and underscoring the themes and theses of Genesis L E Goodman traces the historical and conceptual backgrounds of today s evolution controversies revealing the deep complementarities of religion and the life sciences Solidly researched and replete with scientific case studies vignettes from intellectual history and thoughtful argument Creation and Evolution forthrightly exposes the strengths and weaknesses of today s polarized battle camps Religious and scientific fundamentalisms Goodman shows obscure the real biblical message and distort the deepest insights and richest findings of Darwinian science **Martin Buber and Eastern Wisdom Teachings** Hune Margulies,2022-02-28 This book is an in depth conversation between philosophies of Dialogue particularly as espoused by Martin Buber and teachings from the wisdom traditions of the East particularly Zen Buddhism and its Pure Land School It argues that God is the between of I and Thou Writings from Sufism Hasidism Hinduism and other spiritual traditions are excerpted as well as they all draw their teachings from similar primordial moments of deep poetic insight Dialogical philosophy articulates the principle of relationship which is discussed throughout the book in its various contexts and different modalities T&T Clark Handbook of Suffering and the Problem of Evil Matthias Grebe,Johannes Grössl,2023-07-13 This wide ranging work provides an extensive exploration of the theology of theodicy asking questions such as should all instances of suffering necessarily be understood as evil Why would an omnipotent and benevolent God

allow or perpetrate evil Is God unable or unwilling to reduce human and non human suffering on Earth Does humanity have the capacity to exercise a moral evaluation of God s motives and intentions Conventional disciplinary boundaries have tended to separate theological approaches to these questions from philosophical ones This volume aims to overcome these boundaries by including biblical Part I historical Part II doctrinal Part III philosophical Part IV and pastoral interreligious perspectives and alternative intersections Part V on theodicy Authors include thinkers from analytic and continental traditions multiple Christian denominations and other religions and both established and younger scholars providing a full variety of approaches What unites the essays is an attempt to answer these questions from the perspective of biblical testimony historical scholarship modern theological and philosophical thinking about the concept of God non Christian religions science and the arts The result is a combination of in depth analysis and breadth of scope making this a benchmark work for further studies in the theology of suffering and evil *Somewhere Over the Rainbow* Daniel Ross

Goodman,2020-08-24 Why do we watch movies If we read in search of more life as Harold Bloom is fond of saying then we watch movies this book proposes in search of wonder We watch movies in search of awe inspiring visions transformative experiences and moments of emotional transcendence and spiritual sublimity We watch movies for many of the same reasons that we engage in religion to fill our ordinary evenings and weekends with something of the extraordinary to connect our isolated individual selves to something that is greater than ourselves and because we yearn for something that is ineffable but absolutely indispensable This book through an exploration of some of the most intriguing films of the past two decades illustrates how movies are partners with religion in inspiring conveying and helping us experience what Abraham Joshua Heschel refers to as radical amazement the sense that our material universe and our ordinary lives are filled with more wonders than we can ever imagine and that it takes spiritually as well as cinematically trained eyes to uncover these ever present ocular gems In addition to illustrating how films utilize religious themes and theological motifs to convey a sense of wonder this book offers new interpretations of key films from canonical American directors such as Martin Scorsese Terrence Malick Richard Linklater Wes Anderson and the Coen brothers
