8th International Conference on Practical Applications of Computational Biology & Bioinformatics (PACBB 2014) Julio Saez-Rodriguez, Miguel P. Rocha, Florentino Fdez-Riverola, Juan F. De Paz Santana, 2014-05-21

Biological and biomedical research are increasingly driven by experimental techniques that challenge our ability to analyse process and extract meaningful knowledge from the underlying data The impressive capabilities of next generation sequencing technologies together with novel and ever evolving distinct types of omics data technologies have put an increasingly complex set of challenges for the growing fields of Bioinformatics and Computational Biology The analysis of the datasets produced and their integration call for new algorithms and approaches from fields such as Databases Statistics Data Mining Machine Learning Optimization Computer Science and Artificial Intelligence Clearly Biology is more and more a science of information requiring tools from the computational sciences In the last few years we have seen the surge of a new generation of interdisciplinary scientists that have a strong background in the biological and computational sciences In this

context the interaction of researchers from different scientific fields is more than ever of foremost importance boosting the research efforts in the field and contributing to the education of a new generation of Bioinformatics scientists PACBB 14 contributes to this effort promoting this fruitful interaction PACBB 14 technical program included 34 papers spanning many different sub fields in Bioinformatics and Computational Biology Therefore the conference promotes the interaction of scientists from diverse research groups and with a distinct background such as computer scientists mathematicians or biologists

Advances in Soft Computing Ildar Batyrshin, María de Lourdes Martínez-Villaseñor, Hiram Eredín Ponce Espinosa, 2019-01-02 The two volume set LNAI 11288 and 11289 constitutes the proceedings of the 17th Mexican International Conference on Artificial Intelligence MICA I 2018 held in Guadalajara Mexico in October 2018 The total of 62 papers presented in these two volumes was carefully reviewed and selected from 149 submissions The contributions are organized in topical as follows Part I evolutionary and nature inspired intelligence machine learning fuzzy logic and uncertainty management Part II knowledge representation reasoning and optimization natural language processing and robotics and computer vision

Lucene in Action Otis Gospodnetic, Erik Hatcher, Michael McCandless, 2010-07-08 When Lucene first hit the scene five years ago it was nothing short of amazing By using this open source highly scalable super fast search engine developers could integrate search into applications quickly and efficiently A lot has changed since then search has grown from a nice to have feature into an indispensable part of most enterprise applications Lucene now powers search in diverse companies including Akamai Netflix LinkedIn Technorati HotJobs Epiphany FedEx Mayo Clinic MIT New Scientist Magazine and many others Some things remain the same though Lucene still delivers high performance search features in a disarmingly easy to use API Due to its vibrant and diverse open source community of developers and users Lucene is relentlessly improving with evolutions to APIs significant new features such as payloads and a huge increase as much as 8x in indexing speed with Lucene 2.3 And with clear writing reusable examples and unmatched advice on best practices Lucene in Action Second Edition is still the definitive guide to developing with Lucene Purchase of the print book comes with an offer of a free PDF ePub and Kindle eBook from Manning Also available is all code from the book

Scalability Challenges in Web Search Engines B. Barla Cambazoglu, Ricardo Baeza-Yates, 2022-06-01 In this book we aim to provide a fairly

comprehensive overview of the scalability and efficiency challenges in large scale web search engines More specifically we cover the issues involved in the design of three separate systems that are commonly available in every web scale search engine web crawling indexing and query processing systems We present the performance challenges encountered in these systems and review a wide range of design alternatives employed as solution to these challenges specifically focusing on algorithmic and architectural optimizations We discuss the available optimizations at different computational granularities ranging from a single computer node to a collection of data centers We provide some hints to both the practitioners and theoreticians involved in the field about the way large scale web search engines operate and the adopted design choices Moreover we survey the efficiency literature providing pointers to a large number of relatively important research papers Finally we discuss some open research problems in the context of search engine efficiency

Analyzing Discourse and Text Complexity for Learning and Collaborating Mihai Dascălu, 2013-11-26 With the advent and increasing popularity of Computer Supported Collaborative Learning CSCL and e learning technologies the need of automatic assessment and of teacher tutor support for the two tightly intertwined activities of comprehension of reading materials and of collaboration among peers has grown significantly In this context a polyphonic model of discourse derived from Bakhtin s work as a paradigm is used for analyzing both general texts and CSCL conversations in a unique framework focused on different facets of textual cohesion As specificity of our analysis the individual learning perspective is focused on the identification of reading strategies and on providing a multi dimensional textual complexity model whereas the collaborative learning dimension is centered on the evaluation of participants involvement as well as on collaboration assessment Our approach based on advanced Natural Language Processing techniques provides a qualitative estimation of the learning process and enhances understanding as a mediator of learning by providing automated feedback to both learners and teachers or tutors The main benefits are its flexibility extensibility and nevertheless specificity for covering multiple stages starting from reading classroom materials to discussing on specific topics in a collaborative manner and finishing the feedback loop by verbalizing metacognitive thoughts

Elasticsearch in Action, Second Edition Madhusudhan Konda, 2024-01-02 Build powerful production ready search applications using the incredible features of Elasticsearch In Elasticsearch in Action Second Edition you will discover Architecture concepts and fundamentals of Elasticsearch Installing configuring and running Elasticsearch and Kibana Creating an index with custom settings Data types mapping fundamentals and templates Fundamentals of text analysis and working with text analyzers Indexing deleting and updating documents Indexing data in bulk and reindexing and aliasing operations Learning search concepts relevancy scores and similarity algorithms Elasticsearch in Action Second Edition teaches you to build scalable search applications using Elasticsearch This completely new edition explores Elasticsearch fundamentals from the ground up You ll deep dive into design principles search architectures and Elasticsearch s essential APIs Every chapter is clearly illustrated with diagrams and hands on examples You ll even explore real world use

cases for full text search data visualizations and machine learning Plus its comprehensive nature means you ll keep coming back to the book as a handy reference Foreword by Shay Banon About the technology Create fully professional grade search engines with Elasticsearch and Kibana Rewritten for the latest version of Elasticsearch this practical book explores Elasticsearch s high level architecture reveals infrastructure patterns and walks through the search and analytics capabilities of numerous Elasticsearch APIs About the book Elasticsearch in Action Second Edition teaches you how to add modern search features to websites and applications using Elasticsearch 8 In it you ll quickly progress from the basics of installation and configuring clusters to indexing documents advanced aggregations and putting your servers into production You ll especially appreciate the mix of technical detail with techniques for designing great search experiences What s inside Understanding search architecture Full text and term level search queries Analytics and aggregations High level visualizations in Kibana Configure scale and tune clusters About the reader For application developers comfortable with scripting and command line applications About the author Madhusudhan Konda is a full stack lead engineer architect mentor and conference speaker He delivers live online training on Elasticsearch and the Elastic Stack Table of Contents 1 Overview 2 Getting started 3 Architecture 4 Mapping 5 Working with documents 6 Indexing operations 7 Text analysis 8 Introducing search 9 Term level search 10 Full text searches 11 Compound queries 12 Advanced search 13 Aggregations 14 Administration 15 Performance and troubleshooting

5G/6G Advancements in Communication Technologies for Agile Management Miryala, Ramesh Kumar, Lee, Young-Chan, Mazurek, Marica, Chendragiri, Madhavaiah, 2025-01-03 The rapid evolution of communication technologies has led to the emergence of 5G and 6G networks set to transform how we connect interact and manage our digital lives As we approach this new era it is essential to examine the advancements challenges and opportunities these networks offer Understanding their potential impact will be key to navigating the future of digital communication 5G 6G Advancements in Communication Technologies for Agile Management presents a holistic view of the 5G and 6G landscape covering the foundational technologies architectural innovations and agile management strategies that were shaping the future of communication networks It delves into the technical aspects of 5G and 6G discussing the core of emerging technologies spectrum management security and privacy considerations Covering topics such as artificial intelligence AI digital divide and workforce skills this book is an excellent resource for researchers engineers network operators industry professionals academicians graduate and postgraduate students and more *Web Information Systems and Technologies* María José Escalona, Francisco Domínguez Mayo, Tim A. Majchrzak, Valérie Monfort, 2020-01-16 This book constitutes revised selected papers from the 14th International Conference on Web Information Systems and Technologies WEBIST 2018 held in Seville Spain in September 2018 The purpose of the WEBIST series of conferences is to bring together researches engineers and practitioners interested in technological advances and business applications of web based information systems The 12 full papers presented in this volume were carefully reviewed

and selected from originally 68 paper submissions They cover different aspects of Web information systems namely internet technology mobile and NLP information systems service based information systems platforms and eco systems Web intelligence and Web interfaces

Spark in Action, Second Edition Jean-Georges Perrin, 2020-06-02 Summary The Spark distributed data processing platform provides an easy to implement tool for ingesting streaming and processing data from any source In *Spark in Action Second Edition* you ll learn to take advantage of Spark s core features and incredible processing speed with applications including real time computation delayed evaluation and machine learning Spark skills are a hot commodity in enterprises worldwide and with Spark s powerful and flexible Java APIs you can reap all the benefits without first learning Scala or Hadoop Foreword by Rob Thomas Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the technology Analyzing enterprise data starts by reading filtering and merging files and streams from many sources The Spark data processing engine handles this varied volume like a champ delivering speeds 100 times faster than Hadoop systems Thanks to SQL support an intuitive interface and a straightforward multilanguage API you can use Spark without learning a complex new ecosystem About the book *Spark in Action Second Edition* teaches you to create end to end analytics applications In this entirely new book you ll learn from interesting Java based examples including a complete data pipeline for processing NASA satellite data And you ll discover Java Python and Scala code samples hosted on GitHub that you can explore and adapt plus appendixes that give you a cheat sheet for installing tools and understanding Spark specific terms What s inside Writing Spark applications in Java Spark application architecture Ingestion through files databases streaming and Elasticsearch Querying distributed datasets with Spark SQL About the reader This book does not assume previous experience with Spark Scala or Hadoop About the author Jean Georges Perrin is an experienced data and software architect He is France s first IBM Champion and has been honored for 12 consecutive years Table of Contents PART 1 THE THEORY CRIPPLED BY AWESOME EXAMPLES 1 So what is Spark anyway 2 Architecture and flow 3 The majestic role of the dataframe 4 Fundamentally lazy 5 Building a simple app for deployment 6 Deploying your simple app PART 2 INGESTION 7 Ingestion from files 8 Ingestion from databases 9 Advanced ingestion finding data sources and building your own 10 Ingestion through structured streaming PART 3 TRANSFORMING YOUR DATA 11 Working with SQL 12 Transforming your data 13 Transforming entire documents 14 Extending transformations with user defined functions 15 Aggregating your data PART 4 GOING FURTHER 16 Cache and checkpoint Enhancing Spark s performances 17 Exporting data and building full data pipelines 18 Exploring deployment
