Educational Leadership in Becoming Nuraan Davids,Yusef Waghid,2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education *SADC Gender Protocol 2019 Barometer*

Morna, Colleen Lowe,Rama, Kubi,2019-08-23 Scoring another goal for gender equality the 2019 Southern African Development Community SADC Gender Protocol Barometer breaks with past tradition in focusing solely on Sexual and Reproductive Health and Rights Measuring 100 indicators across seven themes the Barometer is the first civil society shadow report on SADC s new SRHR Strategy Score Card ranking countries based on their performance while offering detailed analysis and insights into what is changing and still needs to change The no hold barred VoiceandChoice Barometer features the first stand along chapters on Adolescent Sexual and Reproductive Health and Rights Safe Abortion and Sexual Diversity It provides the data that underpins 40 national campaigns led the focal networks of the Southern African Gender Protocol Alliance and 174 local campaigns led by the Centres of Excellence for Gender in Local Government A must read for all those committed to Action and Results for Agenda 2030 in the SADC region **Sex, Sexuality and Sexual Health in Southern**

Africa Deevia Bhana,Mary Crewe,Peter Aggleton,2022-07-15 This book Sex Sexuality and Sexual Health in Southern Africa is structured around four major themes gender and sexuality diversity love pleasure and respect gender sexual violence and health and sexuality gender and sexual justice Chapters in this book analyse sexuality in relation to recent developments in the Southern African region and what this might mean for contemporary theory policy and practice Sex sexuality and sexual health are often viewed through a narrow biomedical lens ignoring the fact that they are profoundly social and historical in character The contributors in this book bring to light the entanglements of sexuality with respect recognition rights and mutual respectful pleasure Authors draw attention to partnerships allyships and feminist queer and trans coalitions in the pursuit of sexual health and justice in the region The book will be of interest to final year undergraduate and postgraduate students researchers and activists as well as those working in Women and Gender Studies Critical Sexuality Studies Sexual and Reproductive Health Development Studies Public Health Psychology Education Sociology and Anthropology Drum ,2008 **Towards a holistic approach to support learners at risk of interrupted development** Macalane J.

Malindi,Johnnie Hay,Thabo Makhalemele,2024-02-23 The COVID 19 pandemic and the restrictions that came with it led to unprecedented disruptions in learner development and put them at risk of poor developmental outcomes It is thus important that the extent of the disruption on their development and the support needs of learners be investigated Researching the impact of the disruption should focus on holistic development In this book the authors use multiple research approaches and methods of gathering data in their respective fields to examine the impact of the disruption and determine the support needs of learners Data gathered through the different methods are processed and findings are presented The findings have implications for both practice and future research in the fields of inclusive education learner support educational psychology movement education Life Orientation and curriculum development *102 Motion Pictures on Democracy* Seerley Reid,1950

Bulletin ,1950 *The Global Testing Culture* William C. Smith,2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high

stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences
