Grammaticalization And English Complex Prepositions A Corpus Based Study:

Grammaticalization and English Complex Prepositions Sebastian Hoffmann, 2007-04-11 What is a grammatical unit How does grammatical structure evolve How can we best investigate the mental representation of grammar What is the connection between language use and language structure This book aims to help answer such questions by presenting a detailed analysis of English complex prepositions e g in spite of or with respect to on the basis of large amounts of authentic language data dating from the Middle Ages until today

Grammaticalization and English Complex Prepositions

Sebastian Hoffmann, 2005-05-12 What is a grammatical unit How does grammatical structure evolve How can we best investigate the mental representation of grammar What is the connection between language use and language structure This book aims to help answer such questions by presenting a detailed analysis of English complex prepositions e g in spite of or with respect to on the basis of large amounts of authentic language data dating from the Middle Ages until today

The Changing English Language Marianne Hundt, Sandra Mollin, Simone E. Pfenninger, 2017-07-20 Experts from psycholinguistics and English historical linguistics address core factors in language change

Grammatical Complexity in Academic English Douglas Biber, Bethany Gray, 2016-05-26 Grammatical Complexity in Academic English uses corpus based analyses to challenge a number of dominant stereotypes and assumptions within linguistics Biber and Gray tackle the nature of grammatical complexity demonstrating that embedded phrasal structures are as important as embedded dependent clauses The authors also overturn ingrained assumptions about linguistic change showing that grammatical change occurs in writing as well as speech This work establishes that academic writing is structurally compressed rather than elaborated that it is often not explicit in the expression of meaning and that scientific academic writing has been the locus of some of the most important grammatical changes in English over the past 200 years rather than being conservative and resistant to change Supported throughout with textual evidence this work is essential reading for discourse analysts sociolinguists and applied linguists as well as descriptive linguists and historical linguists

English Historical Linguistics

Laurel J. Brinton, 2017-07-06 Uniquely organized in terms of theoretical approaches this is an advanced textbook on the study of English historical linguistics

Corpus-Assisted Discourse Studies on the Iraq Conflict John Morley, Paul Bayley, 2011-01-13 This volume illustrates the role of language in political action by analyzing the discourse of various British and US institutions on the war in Iraq It combines quantitative methods based on a sophisticated modular corpus in order to identify regularly occurring lexical and semantic patterns and qualitative context based discourse analysis

Corpus Approaches to Evaluation Susan Hunston, 2010-10-04 This book applies a set of corpus investigation techniques to the study of evaluation or stance or affect in naturally occurring discourse Evaluative language indicates opinions attitudes and judgments It is an important part of activities such as persuading someone that a particular viewpoint is correct or in constructing knowledge from a different number of theories This book argues that phraseology regularities or patterns in language identifiable from

corpus studies is important to the study of evaluative language. It makes a number of more specific arguments that modal meaning is expressed through particular phrases and not only through modal verbs that figurative phrases are used to intensify evaluation and that patterns of use may be exploited to achieve an automatic identification of evaluations. It also builds on the author's previous work in exploring how films and journalism use language and images to build knowledge from ideas.

The Routledge Handbook of Cognitive Linguistics Wen Xu, John R. Taylor, 2021-06-03. The Routledge Handbook of Cognitive Linguistics provides a comprehensive introduction and essential reference work to cognitive linguistics. It encompasses a wide range of perspectives and approaches covering all the key areas of cognitive linguistics and drawing on interdisciplinary and multidisciplinary research in pragmatics, discourse analysis, biolinguistics, ecolinguistics, evolutionary linguistics, neuroscience, language pedagogy and translation studies. The forty-three chapters written by international specialists in the field cover four major areas: Basic theories and hypotheses including cognitive semantics, cognitive grammar, construction grammar, frame semantics, natural semantic metalanguage and word grammar. Central topics including embodiment, image schemas, categorization, metaphor and metonymy, construal, iconicity, motivation, constructionalization, intersubjectivity, grounding, multimodality, cognitive pragmatics, cognitive poetics, humor and linguistic synaesthesia, among others. Interfaces between cognitive linguistics and other areas of linguistic study including cultural linguistics, linguistic typology, figurative language, signed languages, gesture, language acquisition and pedagogy, translation studies and digital lexicography. New directions in cognitive linguistics demonstrating the relevance of the approach to social, diachronic, neuroscientific, biological, ecological, multimodal and quantitative studies. The Routledge Handbook of Cognitive Linguistics is an indispensable resource for undergraduate and postgraduate students and for all researchers working in this area.

Greek Prepositions Pietro Bortone, 2010-04-22. This is the most comprehensive history of the Greek prepositional system ever published. It is set within a broad typological context and examines interrelated syntactic, morphological and semantic change over three millennia. By including for the first time Medieval and Modern Greek, Dr Bortone is able to show how the changes in meaning of Greek prepositions follow a clear and recurring pattern of immense theoretical interest. The author opens the book by discussing the relevant background issues concerning the function, meaning and genesis of adpositions and cases. He then traces the development of prepositions and case markers in ancient Greek, Homeric and classical, with insights from Linear B and reconstructed Indo-European, Hellenistic Greek, which he examines mainly on the basis of Biblical Greek, Medieval Greek, the least studied but most revealing phase, and Modern Greek, in which he also considers the influence of the learned tradition and neighbouring languages. Written in an accessible and non-specialist style, this book will interest classical philologists as well as historical linguists and theoretical linguists.

Computational and Corpus-Based Phraseology Gloria Corpas Pastor, Ruslan Mitkov, 2019-09-18. This book constitutes the refereed proceedings of the Third International Conference on Computational and Corpus-Based Phraseology, EuroPhras 2019, held in Malaga, Spain.

in September 2019 The 31 full papers presented in this book were carefully reviewed and selected from 116 submissions The papers in this volume cover a number of topics including general corpus based approaches to phraseology phraseology in translation and cross linguistic studies phraseology in language teaching and learning phraseology in specialized languages phraseology in lexicography cognitive approaches to phraseology the computational treatment of multiword expressions and the development annotation and exploitation of corpora for phraseological studies The Bloomsbury Companion to Historical Linguistics Silvia Luraghi,Vit Bubenik,2013-03-07 Originally published as the Continuum Companion to Historical Linguistics this book brings together a number of leading scholars who provide a combination of different approaches to current and new issues in historical linguistics while supplying an exhaustive and up to date coverage of sub fields traditionally regarded as central to historical linguistics research The editors aim to build a solid background for further discussion and to indicate directions for new research on relevant open questions The book includes coverage of key terms a list of resources and sections on history of research methodology phonology morphology grammatical categories syntax grammaticalization semantics etymology language contact sociolinguistics causes of language change It is a complete resource for researchers working on historical linguistics **Language, Usage and Cognition** Joan Bybee,2010-04-01 Language demonstrates structure while also showing considerable variation at all levels languages differ from one another while still being shaped by the same principles utterances within a language differ from one another while exhibiting the same structural patterns languages change over time but in fairly regular ways This book focuses on the dynamic processes that create languages and give them their structure and variance It outlines a theory of language that addresses the nature of grammar taking into account its variance and gradience and seeks explanation in terms of the recurrent processes that operate in language use The evidence is based on the study of large corpora of spoken and written language what we know about how languages change as well as the results of experiments with language users The result is an integrated theory of language use and language change which has implications for cognitive processing and language evolution The Oxford Handbook of Construction Grammar Thomas Hoffmann,Graeme Trousdale,2013-04-18 This Handbook is the first authoritative reference work solely dedicated to the theory method and applications of Construction Grammar and will be a resource that students and scholars alike can turn to for a representative overview of its many sub theories and applications

Crime and Corpus Ulrike Tabbert,2015-04-15 Reports on crime in newspapers do not provide a neutral representation of criminals and their offences but instead construct them in accordance with societal discourse surrounding this issue This book takes an interdisciplinary approach at the intersection of Linguistics Criminology and Media Studies and demonstrates how Linguistics can contribute to the study of crime in the media By combining the tools offered by Corpus Linguistics and Critical Stylistics a text based framework for Critical Discourse Analysis evidence is provided for predominant perceptions of crime and their underlying ideologies in both British and German society This study names and illustrates the most

significant linguistic devices used to construct offenders victims and crimes in two newspaper corpora compiled from the German and British press These devices are then linked to criminological frameworks **Corpus-Based Contrastive Studies of English and Chinese** Tony McEnery,Richard Xiao,2010-07-02 This volume represents the first book length corpus based contrastive studies of major grammatical categories in English and Chinese two most important yet distinctly different world languages in the 21st century on the basis of large matching corpora of authentic spoken and written data in the two languages **Public Discourses of Gay Men** Paul Baker,2006-02 Queer linguistics an aspect of sociolinguistics is brought together with corpus linguistics to investigate the way gay male identities are constructed in the public domain

The Discourse of Teaching Practice Feedback Fiona Farr,2010-09-13 In this book Farr examines the spoken and written language of post observation teaching practice feedback on teacher education programs To do so she draws upon theories from discourse analysis conversation analysis and pragmatics to frame the analysis of feedback meetings and written tutor reports which are then examined using comparative quantitative and qualitative corpus based techniques The overall aim is to determine the defining characteristics of this genre focusing especially on pragmatic factors with the ultimate goal of investigating the salient aspects responsible for making feedback both effective and affective Farr s research draws upon a spoken corpus of feedback interactions and a written corpus of tutor reports from language teacher education and is also strongly informed by data in the form of diary reflections and questionnaire responses from student teachers and questionnaire responses from the relevant tutors **Noun-Based Constructions in the History of Portuguese and Spanish** Patrícia Amaral,Manuel Delicado Cantero,2022-04-28 This book explores syntactic and semantic change in three types of construction in Spanish and Portuguese i complex determiner phrases with clausal adjunction el hecho de o facto de ii complex prepositions complementizers and complex connectives sin embargo de sem embargo de so b pena de and iii complex predicates containing light verbs dar consejo conselho de While these constructions are syntactically different they are all clause taking complex expressions containing a noun followed by the functional preposition de of This book is the first work to use a systematic comparative corpus study to explore these expressions together this approach allows individual changes to be distinguished from general changes as well as emphasizing the chronological clustering of changes that involve complex constructions in both languages By studying mechanisms of language change and their outcomes in two sister languages Patrícia Amaral and Manuel Delicado Cantero address questions such as How do complex constructions evolve How does the meaning of the noun change when considered in isolation and when compared to the meaning of the whole construction And how do syntactic categories change over time This study of two closely related languages reveals distinct developments occurring in parallel and provides a crucial test case for theories of language change Corpus-based Research on Variation in English Legal Discourse Teresa Fanego,Paula Rodríguez-Puente,2019-02-15 This volume provides a comprehensive overview of the research carried out over the past thirty years in the vast field of legal discourse The focus is

on how such research has been influenced and shaped by developments in corpus linguistics and register analysis and by the emergence from the mid 1990s of historical pragmatics as a branch of pragmatics concerned with the scrutiny of historical texts in their context of writing The five chapters in Part I together with the introductory chapter offer a wide spectrum of the latest approaches to the synchronic analysis of cross genre and cross linguistic variation in legal discourse Part II addresses diachronic variation illustrating how a diversity of methods such as multi dimensional analysis move analysis collocation analysis and Darwinian models of language evolution can uncover new understandings of diachronic linguistic phenomena

The Routledge Handbook of Semantics Nick Riemer, 2015-07-30 The Routledge Handbook of Semantics provides a broad and state of the art survey of this field covering semantic research at both word and sentence level It presents a synoptic view of the most important areas of semantic investigation including contemporary methodologies and debates and indicating possible future directions in the field Written by experts from around the world the 29 chapters cover key issues and approaches within the following areas meaning and conceptualisation meaning and context lexical semantics semantics of specific phenomena development change and variation The Routledge Handbook of Semantics is essential reading for researchers and postgraduate students working in this area

international river basins as regional security communities the - Feb 13 2023

apr 7 2018 the okavango river basin defies both logics that africa is a constant source of bad news and that water scarcity
will lead states inevitably to violent conflicts the okavango case presents water conflicting uses and scarcity in an
international basin formed by angola botswana and namibia
