Planner ,2013-08-01 Introduction to Meteorology and Astronomy Course Description This is the suggested course sequence
that allows one core area of science to be studied per semester You can change the sequence of the semesters per the needs
or interests of your student materials for each semester are independent of one another to allow flexibility Semester 1
Meteorology The Earth was created to be the dwelling place of man It is a complex world and its weather patterns affect our
lives every day Whether you live near the equator a polar region or somewhere in between knowledge of the weather is
important The Weather Book will teach you why our exact distance from the sun allows life on earth how the weather on the
other side of the earth affects you how clouds form and how to identify the different types what the difference is between a
cold and warm front why you can often see lightning long before you can hear thunder how to build your own weather station
how to survive in dangerous weather what the greenhouse effect and the ozone hole are what Noah s flood and the Ice Age
have in common how weatherpersons forecast hurricanes and tornadoes how to read a weather map and what our
responsibility is to the environment Learning about the weather is fun It will change the way you look at the clouds in the sky
Now you ll have more of an understanding about what is going on miles above your head And when you hear a weather
report on television you will understand so much more about the world around you Semester 2 Astronomy One thing we have
in common with the ancients is that all of the human race has gazed at the night sky and the bright morning and wondered
What s out there Our universe is so vast and awe inspiring that to learn about it is to learn about ourselves The Astronomy
Book will teach you what long ago astronomers thought about other worlds solar system facts how constellations relate to
astrology the history of space exploration black holes do they exist the origin and age of the moon why Mars doesn t support
life the composition of stars supernova remnants and the myth of star birth asteroid legends and the extinction of the
dinosaurs are there planets outside our solar system and could they be home to intelligent life what are UFOs and the age of
comets and meteor showers Learning about the universe is huge fun In the almost infinite expanse above us we can examine
planets galaxies and phenomena so beautiful and complex that we never outgrow a childlike wonder We see our own
reflection in the moon the stars and in comet trails The more we learn the less we fear *Today's Curriculum as Seen in*
