Language Decline And Death In Africa Causes Consequences And Challenges Multilingual Matters:

Language Decline and Death in Africa Herman Batibo, 2005-01-01 The aim of this book is to inform both scholars and the public about the nature and extent of the problem of language decline and death in Africa It resourcefully traces the main causes and circumstances of language endangerment the processes and extent of language shift and death and the consequences of language loss to the continent's rich linguistic and cultural heritage The book outlines some of the challenges that have emerged out of the situation

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza, Hugh Mangeya, Isaac Mhute, 2024-06-17 This handbook provides a detailed and sustained examination of the scope purpose and practical application of crisis and disaster management communication in this critical region of the African continent sub Saharan Africa SSA The volume lays the foundation that enables a nuanced appreciation of two significant issues The first pertains to SSA's vulnerability to both natural and man made phenomena Secondly it argues that communication plays a critical role in so far as the identification social construction raising awareness preparation mitigation and eradication of crises and disasters in the region Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence This handbook is a key resource for academics students and practitioners in areas such as political communication media communication language and communication brand communication social digital media communication and crisis communication among others

Globalization and Language Vitality Cécile B. Vigouroux, Salikoko S. Mufwene, 2008-11-05 This book discusses the effects of globalization on languages in Africa In contrast to previous studies the contributors examine whether or not globalization is affecting African languages in the same ways and at the same rate in different countries and how local experiences of language change vary from place to place Rather than seeing English as the killer language par excellence the contributors probe ways in which languages are being used side by side to complement each other in some contexts while competing against European colonial languages in others The result is a diverse canvas of language vitality in the African context including matters of endangerment and loss through the lense of globalization in its various interpretations This book is a must read for students and researchers interested in language change and death and in the fate of European languages in the rest of the world

Africa's Endangered Languages Jason Kandybowicz, Harold Torrence, 2017-07-10 Relatively little is known about Africa's endangered languages Unlike indigenous languages in Australia North Asia and the Americas which are predominantly threatened by colonizers African languages are threatened most immediately by other local languages As a result the threat of language extinction is perceived as lower in Africa than in other parts of the globe and a disproportionate amount of research is devoted to the study of endangered African languages when compared to any other linguistically threatened region in the world There are approximately 308 highly endangered languages spoken in Africa roughly 12% of all African languages and at least 201 extinct African languages This volume hopes to illuminate and

challenge this trend Chapters offer both documentary and theoretical perspectives emphasizing the symbiotic relationship between the two approaches and its implications for the preservation of endangered languages both in the African context and more broadly Documentary oriented chapters deal with key issues in African language documentation including language preservation and revitalization community activism and data collection and dissemination methodologies among others Theoretically oriented chapters provide detailed descriptions and analyses of phonetic phonological morphological syntactic and semantic phenomena and connect these to current theoretical issues and debates Africa's Endangered Languages provides thorough coverage of a continent's neglected languages that will spur linguists and Africanists alike to work to protect them

Language Contact Kelechukwu U Ihemere, 2014-09-18 Since the inception of modern contact linguistics through the works of Weinreich 1953 and Haugen 1953 numerous investigators have studied the manifestations of language contact across different disciplines naturally adopting varied perspectives and approaches relevant to their particular field of inquiry In spite of the many approaches and interests quite simply when speakers of different languages interact closely it is typical for their languages to influence each other The influence could be as common as the exchange of words or what is termed vocabulary borrowing in the literature It can also go deeper extending to the exchange of even basic characteristics of a language such as morphology and grammar In some cases the result of the contact of two languages can be the replacement of one by the other This is most common in asymmetric relationships between languages and sometimes leads to language shift and death The present volume is unique in that it brings together research by distinguished scholars and other highly talented investigators from across the world to offer a multidimensional exploration of the field The individual chapters present contemporary discussions and analyses of the topics grouped into three parts

The Palgrave Handbook of Minority Languages and Communities Gabrielle Hogan-Brun, Bernadette O'Rourke, 2018-12-11 This Handbook is an in depth appraisal of the field of minority languages and communities today It presents a wide ranging coherent picture of the main topics with key contributions from international specialists in sociolinguistics policy studies sociology anthropology and law Individual chapters are grouped together in themes covering regional non territorial and migratory language settings across the world It is the essential reference work for specialist researchers scholars in ancillary disciplines research and coursework students public agencies and anyone interested in language diversity multilingualism and migration

Atlas of the World's Languages in Danger Christopher Moseley, 2010-01-01 Languages are not only tools of communication they also reflect a view of the world Languages are vehicles of value systems and cultural expressions and are an essential component of the living heritage of humanity Yet many of them are in danger of disappearing UNESCO's Atlas of the World's Languages in Danger tries to raise awareness on language endangerment This third edition has been completely revised and expanded to include new series of maps and new points of view

Ugandan English Christiane Meierkord, Bebwa Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past

research This timely volume brings together African and European scholars in a first ever collection of articles that offer comprehensive discussions of the historical and present day sociolinguistics of English in Uganda and fine grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety Using rich archive corpus and interview data as well as ethnographic and observational methods the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation reflecting the modern nation s status as a post protectorate under the influence of globalisation Apart from advancing our understanding of Ugandan English itself the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages founder populations language ideologies and socio economic factors

One Thousand Languages Peter Austin, 2008 Presents an overview of the living endangered and extinct languages of the world providing the total number of speakers of the language its history and maps of the geographic areas where it is presently spoken or where it was spoken in the past

The Languages and Linguistics of Africa Tom Güldemann, 2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa the continent with the largest number of languages in the world It covers the major domains of linguistics offering both a representative picture of Africa s linguistic landscape as well as new and at times unconventional perspectives The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics

The Social and Political History of Southern Africa's Languages Tomasz Kamusella, Finex Ndhlovu, 2017-11-21 This book is the first to offer an interdisciplinary and comprehensive reference work on the often marginalised languages of southern Africa The authors analyse a range of different concepts and questions including language and sociality social and political history multilingual government and educational policies In doing so they present significant original research ensuring that the work will remain a key reference point for the subject This ambitious and wide ranging edited collection will appeal to students and scholars of southern African languages sociolinguistics history and politics

Indigenous Language Acquisition, Maintenance, and Loss and Current Language Policies Okamura, Toru, Kai, Masumi, 2020-08-28 The world s linguistic map has changed in recent years due to the vast disappearance of indigenous languages Many factors affect the alteration of languages in various areas of the world including governmental policies education and colonization As indigenous languages continue to be affected by modern influences there is a need for research on the current state of native linguistics that remain across the globe Indigenous Language Acquisition Maintenance and Loss and Current Language Policies is a collection of innovative research on the diverse policies influences and frameworks of indigenous languages in various regions of the world It discusses the maintenance attrition or loss of the indigenous languages language status in the society language policies and

the grammatical characteristics of the indigenous language that people maintained and spoke This book is ideally designed for anthropologists language professionals linguists cultural researchers geographers educators government officials policymakers academicians and students **Language and Decolonisation** Finex Ndhlovu, Sabelo J.

Ndlovu-Gatsheni, 2024-07-23 Language and Decolonisation is the first collection to bring together views from across scholarly communities that are committed to the agenda of decolonising knowledge in language study Edited by leading figures in the field the chapters offer new insights on how decolonising can be adopted as a methodology for charting the next steps in solving practical language related problems in educational and related social policy areas Divided into two sections the book covers the coloniality of language the materiality of culture and colonial scripts the decolonisation imperative multilingualism discourse and decolonisation and decolonising languages in public discourse With 20 chapters authored by experts from across the globe this pioneering collection is an essential reference and resource for advanced students scholars and researchers of language and culture sociolinguistics decolonial studies racial studies and related areas **Indigenous**

Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole Christina, 2025-03-28 Literature indicates that sociolinguists and educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion Such claims delay the implementation of decolonization policies and the transformation of the curriculum under false assumptions However research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation As a result further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students Indigenous Teaching Disciplines and Perspectives for Higher Education illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models It explores how to improve Indigenous knowledge content and teaching methods Covering topics such as cultural identity African research methodology and Indigenous media this book is an excellent resource for teachers policymakers school administrators researchers scholars academicians and more *Prospects for Regional Integration in Africa* Andreas Freytag, Abena D. Oduro, African integration has had a long

history dating back to the end of colonization in the 1960s It has generated enormous interest in recent years not least because the continent has recently taken some bold steps to integrate further such as the Tripartite Free Trade Area or the creation of the African Continental Free Trade Area AfCFTA With this book we offer an innovative perspective on African integration By inviting mostly young African scholars from different disciplines in the social sciences and humanities we make African voices audible and start a discussion of the African integration efforts from an African perspective using novel criteria to judge different African integration attempts In addition to the younger generation's representatives we also invited

scholars from Europe and Latin America to bring other continents perspectives to the fore African Englishes Collen Sabao, Esther Mavengano, 2025-09-25 This book investigates the functions and linguistic forms of African Englishes and what this means for languages indigenous to Africa It examines the historical imposition of English on the continent as part of a broader project of cultural imperialism and traces its transformation from a colonial tool to a dynamic and diverse language examining its set of contemporary usage patterns and its likely future directions Thorough diverse critical approaches this book unpacks how language contact has given rise to distinct variations including second language varieties pidgins and creoles that are moulded by Africa s linguistic and cultural diversity Drawing on case studies from West East and Southern Africa this book illuminates contemporary English usages in multilingual spaces where cultural and linguistic plurality drive ongoing shifts in communication More than just being a study of language change this book calls for a reassessment of the future of African Englishes and their impact on indigenous languages Thus the book is an essential read for scholars and students in linguistics African Studies and World Englishes as it contributes fresh insights into the intersections of language culture identity and power in modern day African lifeworlds *Ethiopia in Transit* Pietro Toggia, Abebe Zegeye, 2013-10-18 The writings in this edition explore historical and contemporary issues in Ethiopia as the country underwent change and celebrated its new millennium However despite the recognizance of socio economic and political changes Ethiopia still faces enduring problems and challenges to its stability and continuity The political past haunts the country while it is facing the future with optimism and hope The contributors in this edition examine historical and contemporaneous issues with different lenses they investigate the multiplicity and complexity of the contradictions that define traditional and modern Ethiopia The contributions highlight the significance of the instability dislocation conflict and transformation inherent in any society None of these writings however celebrate the forces that create the conflict they are cautious not to glorify the present and romanticize the past On the contrary they seek to contextualize the challenges which the country faces with a view to open a dialogue not exclusively among Ethiopians but with scholars and social activists in the rest of Africa as well as the international community The contributions cover and examine such important topics as historiography political power and legitimacy ideology and radical views knowledge transmission and modernity emigration and the Ethiopian Diaspora ethnic and linguistic identity patriarchy and feminist discourses in a traditional society public policies and economic development traditional and modern art and culture and neo liberalism and globalization This book was published as a special issue of African Identities **Challenges for the Democratisation Process in Tanzania** Jonas Ewald, 2013-07-24 Tanzania has been independent in 2011 for 50 years While most neighbouring states have gone through violent conflicts Tanzania has managed to implement extensive reforms without armed political conflicts Hence Tanzania is an interesting case for Peace and Development research This dissertation analyses the political development in Tanzania since the introduction of the multiparty system in 1992 with a focus on the challenges for the democratisation process in connection with the 2000 and

2005 elections The question of to what extent Tanzania had moved towards a consolidation of democracy is analysed by looking at nine different institutions of importance for democratisation grouped in four spheres the state the political civil and economic society Focus is on the development of the political society and the role of the opposition in particular The analysis is based on secondary and primary material collected between September 2000 to April 2010 The main conclusion is that even if the institutions of liberal democracy have gradually developed in practice single party rule has continued manifested in the 2005 election when the CCM won 92% of seats Despite impressive economic growth poverty remains deep and has not been substantially reduced On a theoretical level this brings the old debate between liberal and substantive democracy back to the fore Neither the economic nor the political reforms have brought about a transformation of the political and economic system resulting in the poor majority gaining substantially more political influence and improved economic conditions Hence it is argued that the interface between the economic political and administrative reforms has not been sufficiently considered in the liberal democratic tradition Liberal democracy is necessary for a democratic development but not sufficient for democracy to be consolidated For that a substantive democratic development is necessary **Calunga**

and the Legacy of an African Language in Brazil Steven Byrd, 2012-11-15 Although millions of slaves were forcibly transported from Africa to Brazil the languages the slaves brought with them remain little known Most studies have focused on African contributions to Brazilian Portuguese rather than on the African languages themselves This book is unusual in focusing on an African descended language The author describes and analyzes the Afro Brazilian speech community of Calunga in Minas Gerais Linguistically descended from West African Bantu Calunga is an endangered Afro Brazilian language spoken by a few hundred older Afro Brazilian men who use it only for specific secret communications Unlike most creole languages which are based largely on the vocabulary of the colonial language Calunga has a large proportion of African vocabulary items embedded in an essentially Portuguese grammar A hybrid language its formation can be seen as a form of cultural resistance Steven Byrd's study provides a comprehensive linguistic description of Calunga based on two years of interviews with speakers of the language He examines its history and historical context as well as its linguistic context its sociolinguistic profile and its lexical and grammatical outlines **Identity(ies)** ANA PAULA ARNAUT, 2017-11-20

At a time when the world watches in horror the unfolding drama of millions of refugees and the anxiety of identity figures prominently among globalization's many side effects this is certainly a very timely book with contributions that address the momentous issues at hand in ways that are not just varied but also surprisingly illuminating It seems only appropriate that the book starts and ends Whoever is not Greek is a barbarian The Women of the Other and us with well contextualized historical theoretical reflexions on the unfailingly self serving construction and ultimate appropriation of the other be it the supposedly inarticulate savage of neighboring barbarian shores or the haunting background presence of Arab women the barely acknowledged half of the West's reified Rest In fact although the chronological distance between the two historical

moments is such as to discourage hasty generalizations the continuities and the potential relevance are just too striking to be ignored
