Lou Harrison Composing A World:

Lou Harrison Leta E. Miller, Fredric Lieberman, 1998 Lou Harrison who celebrated his 80th birthday in 1997 has often been cited as one of the America's most original and influential composers. In addition to his prolific musical output, Harrison is also a skilled painter, calligrapher, essayist, critic, poet, and instrument builder. During his long and varied career, he has explored dance, Asian music, tuning systems, and universal languages and has actively championed political causes ranging from pacifism to gay rights. As an articulate and outspoken observer of the contemporary musical scene, he is frequently quoted in the media, yet until now no comprehensive study of his life and works has been published. The present book, supported by extensive archival research and nearly 70 interviews, examines the ideas that have shaped Harrison's creative output as seen through the eyes of the composer and his associates. A detailed biographical section is followed by individual chapters focusing on Music and Dance, Intonation and Tuning, Instruments, Asian influences, Gamelan Music, and Politics, Music Criticism, and Compositional Processes. In a separate chapter, the authors describe the historical background of the San Francisco gay community, Harrison's literary and musical statements on gay rights, and possible gay markers on his musical style. An annotated works list details over 300 compositions, and a full-length CD illustrates the text in sound, including several unique and previously unrecorded works. This engaging study of Harrison's life and works will be indispensable to students and scholars of American music and to performing artists and programmers. *Composing a World* Leta E. Miller, 2004

<https://www.kylegann.com/Arithmetic.html> Charles Ives in the Mirror David C Paul, 2013-04-01 American composer Charles Ives 1874-1954 has gone from being a virtual unknown to become one of the most respected and lauded composers in American music. In this sweeping survey of intellectual and musical history, David C. Paul tells the new story of how Ives's music was shaped by shifting conceptions of American identity within and outside of musical culture, charting the changes in the reception of Ives across the twentieth century and into the twenty-first century. Paul focuses on the critics, composers, performers, and scholars whose contributions were most influential in shaping the critical discourse on Ives; many of them are marquee names of American musical culture themselves, including Henry Cowell, Aaron Copland, Elliott Carter, and Leonard Bernstein. Paul explores both how Ives positioned his music amid changing philosophical and aesthetic currents and how others interpreted his contributions to American music. Although Ives's initial efforts to find a public in the early twenties attracted a few devotees, the resurgence of interest in the American literary past during the thirties made a concert staple of his *Concord Sonata*, a work dedicated to nineteenth-century transcendentalist writers. Paul shows how Ives was subsequently deployed as an icon of American freedom during the early Cold War period and how he came to be instigated at the head of a line of American maverick composers. Paul also examines why a recent cadre of scholars has beset the composer with Gilded Age social anxieties. By embedding Ives's reception within the changing developments of a wide range of fields, including intellectual history, American studies, literature, musicology, and American politics and society in general, *Charles Ives in the Mirror: American Histories of an Iconic Composer* greatly advances our understanding of Ives and his influence on nearly a century of American culture. **Tomorrow Is the Question** Benjamin Piekut, 2014-04-09 Essays investigating and sparking new questions in experimental music *Locating East Asia in Western Art Music* Yayoi Uno Everett, Frederick Lau, 2024-08-06 The traditional musics of China, Japan, and Korea have been an important source of inspiration for many Western composers. Some like Chou Wen-chung and John Cage have moved beyond superficial borrowing of Eastern musical elements in earnest attempts to understand non-Western principles of composition. At the same time, many Asian composers, often trained in the West or in Western music traditions, have been using Asian elements to create works of unique musical synthesis. As a result of such cultural interpenetrations, the landscape of Western art music has been irreversibly altered. *Locating East Asia in Western Art Music* is a comparative study of Asian-influenced Western composers and Western-influenced Asian composers and the first sustained exploration of this cross-cultural exchange. Bringing together work by music theorists, musicologists, and ethnomusicologists, this book explores how musical notions of East and West are constructed and utilized by composers and reevaluates the many ways East Asian composers have contributed to developments in twentieth-century music. Composers discussed include John Cage, Toru Takemitsu, Chou Wen-chung, Toshio Mayuzumi, Isang Yun, Tan Dun, John Zorn, and Henry Cowell. CONTRIBUTORS: Hugh De Ferranti, Yayoi U. Charles Ives's Concord Kyle Gann, 2017-05-16 In 1921 insurance executive Charles Ives sent out copies of a piano sonata to two hundred strangers Laden with dissonant chords complex rhythm and a seemingly chaotic structure the so called Concord Sonata confounded the recipients as did the accompanying book Essays before a Sonata Kyle Gann merges exhaustive research with his own experience as a composer to reveal the Concord Sonata and the essays in full Diffracting the twinned works into their essential aspects Gann lays out the historical context that produced Ives's masterpiece and illuminates the arguments Ives himself explored in the Essays Gann also provides a movement by movement analysis of the work's harmonic structure and compositional technique connects the sonata to Ives's works that share parts of its material and compares the 1921 version of the Concord with its 1947 revision to reveal important aspects of Ives's creative process A tour de force of critical theoretical and historical thought Charles Ives's Concord provides nothing less than the first comprehensive consideration of a work at the heart of twentieth century American music

Jonathan's Loves, David's Laments Dirk von der Horst, 2017-03-24 Jonathan's Loves David's Laments uses early modern musical interpretations of David's Lament over Saul and Jonathan to deepen the historicist foundations of contemporary feminist and gay relational theologies After laying out how gay theologian Gary David Comstock connects the story of David and Jonathan to the theology of lesbian theologian Carter Heyward the argument interrogates both theological and exegetical problems in making those connections which include contradictory theological stances with regard to modernity and history as well as the indeterminacy of the biblical text Early modern musical interpretations of the text allow for a double move of engaging the texts through a sensual medium thus reinforcing queer possibilities for meaning making from the biblical text and staying attuned to the fact that the history of interpretation reinforces the indeterminacy of the text thus keeping queer interpretations aware of the relativizing function of historical difference
