Bioethics in Cultural Contexts Christoph Rehmann-Sutter, Marcus Düwell, Dietmar Mieth, 2006-03-08 CHRISTOPH REHMANN SUTTER MARCUS D WELL DIETMAR MIETH When we placed finitude limits of human existence as a motto over a round of discussion on biomedicine and bioethics which led to this collection of essays we did not know how far this would lead us into methodological quandaries However we felt intuitively that an interdisciplinary approach including social and cultural sciences would have an advantage over a solely disciplinary philosophical or theological analysis Bioethics if it is to have adequate discriminatory power should include sensitivity to the cultural contexts of biomedicine and also to the cultural contexts of bioethics itself Context awareness of course is not foreign to philosophical or theological bioethics for the simple reason that the issues tackled in the debates as in other fields of ethics could not be adequately understood outside their contexts Moral issues are always accompanied by contexts When we try to unpack them which is necessary to make them accessible to ethical discussion we are regularly confronted with the fact that in removing too much of the context we do not clarify an issue but make it less comprehensible The context at least some essential parts of it is intrinsic to the issue Unpacking in ethics is therefore a different procedure It does not mean peeling the context off but rather identifying which contextual elements are essential for an understanding of the key moral aspects of the issue and explaining how they
