Hermeneutic Phenomenology In Education Method And Practice:

Hermeneutic Phenomenology in Education Norm Friesen, Carina Henriksson, Tone Sævi, 2012-09-05 Hermeneutic phenomenology is a combination of theory reflection and practice that interweaves vivid descriptions of lived experience phenomenology together with reflective interpretations of their meanings hermeneutics This method is popular among researchers in education nursing and other caring and nurturing practices and professions Practical and adaptable it can be at the same time poetic and evocative As this collection shows hermeneutic phenomenology gives voice to everyday aspects of educational practice particularly emotional embodied and empathic moments that may be all too easily overlooked in other research approaches By explicating illustrating and demonstrating hermeneutic phenomenology as a method for research in education specifically this book offers an excellent resource for beginning as well as more advanced researchers

Phenomenology and Educational Theory in Conversation Patrick Howard, Tone Sævi, Andrew Foran, Gert Biesta, 2020-06-10 Phenomenology and Educational Theory in Conversation challenges the abstract technical understanding of education to orient the reader to the importance of relationality intersubjectivity and otherness to renew and reclaim the educational project This book treats education as a matter of existence relationality and common human concerns It offers readers an alternative language to reveal and challenge the humanistic encounters that often disappear in the shadows of neoliberalism The phenomenologists and educational theorists featured here offer insights that connect fully and concretely with the everyday lives of educators and students They offer another language by which to understand education that is counter to the objectifying instrumentalist language prevalent in neoliberal discourse This book will be of great interest for academics researchers and post graduate students in the fields of pedagogy phenomenology educational theory and progressive education

Phenomenological Inquiry in Education Edwin Creely, Jane Southcott, Kelly Carabott, Damien Lyons, 2020-12-28 Phenomenological Inquiry in Education is an edited collection of 16 chapters that offers a fascinating and diverse range of approaches and views about phenomenological inquiry as applied in educational research Written by a group of international scholars concerned about understanding lived experience the editors assemble theoretical ideas methodological approaches and empirical research to create a distinctive transdisciplinary outlook Embodying many unique and useful insights the book provokes thought about the possibilities for phenomenology in contemporary educational research The international contributors highlight what an exploration of lived experience can offer qualitative research and extend on methodologies commonly used in educational research By grounding phenomenological inquiry in the complexities of doing research across discipline areas in education the writers of the book forge links between theory and empirical research and give their unique perspectives about how phenomenological ideas are being and might be employed in educational research The book is thus carefully crafted to address both phenomenology as a philosophical tradition and its possibilities for educational research This scholarly work will appeal to educational researchers as well as those in broader

social research It taps into the growing international interest in phenomenological research in education which brings attention to lived experience and the highly important affective dimension of learning

Heidegger and the Lived Experience of Being a University Educator Joshua Spier, 2018-02-09 This book explores the lived meanings of being a university educator from an existential perspective The book enriches our understanding of educators experiences in light of Martin Heidegger s early philosophy and vice versa opening our understanding of Heidegger s philosophy through educators experiences Also drawing on the philosophical insights of Hans Georg Gadamer the book situates the purposes and experiences of the educator in historical and contemporary contexts In doing so the author reveals that being a university educator is essentially characterised by conversation and time Inspired by the author s own experiences of teaching community development and sociology within a youth work specific bachelor degree the book invites educators to apply existential philosophy as a tool to reflect upon their own experiences and to reconnect with the question of what it means to be an educator in their shared world of practice This thoughtful volume is sure to resonate with the experiences of readers who educate within a university context
