the poets by Sanskrit extracts adding merely a literal English version in which no note is taken of variations of text or renderings To save space I have in the main dealt only with works earlier than A D 1200 though especially in the case of the scientific literature important books of later date are briefly noticed This book was sent in completed for the press in January 1926 but pressure of work at the University Press precluded printing until the summer of 1927 when it was deemed best in order not to delay progress to assign to this preface the notice of such new discoveries and theories of 1926 and 1927 as might have permanent interest
