unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women s ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche s Die Geschichte des Fr auleins von Sternheim The History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger s Julchen Gr unthal brings to the Frauenroman or women s novel the use of irony to portray a heroine s emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau s Bl utenalter der Empfindung The Blossoming of Feeling imagines women s affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her Agnes von Lilien The fifth novel Die Honigmonathe The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler s Frauenw urde The Dignity of Women expands the focus from a young heroine to multiple mature characters while maintaining the centrality of women s talents and emotions Finally this study accords honorable mention to some other women s novels before concluding that the influence of these six works was in no way trivial either in portraying women s lives and emotions or in the history of German literature

Heroines in History Katie Pickles, 2022-07-21 Heroines in History A Thousand Faces moves beyond stories of individual heroines taking a thematic synthesising and global in scope approach to challenge previous understandings of heroines in history Responding to Joseph Campbell's Hero with a Thousand Faces Katie Pickles explores the idea of a transcultural heroine archetype that recurs through time Each chapter addresses an archetypal theme important for heroines in history The volume offers a new consideration of the often awkward position of women in history and embeds heroines in the context of their times as well as interpreting and analysing how their stories are told re told and represented at different moments To do so it recovers and compares some women now forgotten along with well known recent heroines and brings together a diversity of women from around the world Pickles looks at the interplay of gender race heredity status class and politics in different ways and chronicles the emergence of heroines as historical subjects valued for their substance and achievements rather than as objects valued for their image and celebrity In an accessible and original way the book builds upon developments in women's and gender history and is essential reading for anyone interested in this field

Women's Deliberation: The Heroine in Early Modern French Women's Theater (1650-1750) Theresa Varney Kennedy, 2018-04-17 Women's Deliberation The Heroine in Early Modern French Women's Theater 1650

1750 argues that women playwrights question traditional views on women through their heroines Denied the powers of cleverness the authority of deliberation and the right to speak heroines were often excluded from central roles in plays by leading male playwrights from this period Women playwrights on the other hand embraced the ideas necessary to expand the boundaries of female heroism Heroines in plays from the mid seventeenth through the mid eighteenth centuries reflect a shift in mentalities toward rationality and female agency I argue that the deliberative heroine emerging at the dawn of the eighteenth century is the most fully developed exuding all the characteristics of the modern day heroine Although she embodies many of the qualities of her heroine counterparts she also responds to them Only the deliberative heroine based on Enlightenment ideals such as women s ability to rationalize and the complex interplay between reason and sentiment truly liberates female characters from a history of traditional roles Whereas other heroines act in accordance with social construct or on impulse the deliberative heroine realizes the ideals of the seventeenth century salons that petitioned for women to have greater control over their own bodies DeJean 21 She is active and her determination to follow through with her own line of reasoning that involves both mind and heart enables her to determine the outcome of events In the end this new generation of heroines ushered in an era where women playwrights could make their own contribution to dramatic works at the dawn of the Age of Enlightenment

Becoming a Heroine Rachel M. Brownstein, 1994 Brownstein examines how the stories we read influence our notions of how we should live In fresh wonderfully nuanced readings of works by Jane Austen Charlotte Bront George Eliot Henry James and Virginia Woolf she considers woman centered novels as rewritings of romance and analyzes the thematic links and echoes that connect these works not only to each other but to women's lives This splendidly provocative book shows how good novels intelligent heroines and careful readers are skeptical of the romantic ideal of a perfected integral self Publisher's description back cover
