Architectures of Bureaucracy Jens van de Maele,2025-01-27 This monograph examines the interrelationship between
politics and modernist architecture in interwar Belgium focusing on political architectural and administrative elites as
propagators of new ideas of governance While Belgium was strongly influenced by neighbouring France and Germany it also
developed its own avant garde approaches to socio political problems In the second half of the 1930s the country was the
scene of a remarkable political and architectural experiment involving an ambitious plan for the large scale construction of
modernist government office buildings These buildings were seen as essential to the development of a technocratic model of
governance aimed at strengthening the role of the executive and minimising the influence of parliament More specifically the
efficient new office architecture was supposed to create a new type of perfect civil servant whose loyalties would no longer
lie with political parties but with scientists and management experts Such experts and scientists constituted a rising elite of
homines novi with strong though often veiled political ambitions As such this book contributes to our understanding of
political culture in the age of extremes **Volledige leercursus der engelsche taal** ,1888 Indonesian Houses R.
Schefold,Peter J.M. Nas,2008-01-01 This collection aims to attract attention to the admirable achievements of indigenous
builders in Indonesia and to contribute to a broader sense of commitment to the endangered architectural heritage in the
region It presents the second part of the results of a research project on vernacular architecture in western Indonesia
sponsored by the Royal Netherlands Academy of Sciences The volume is intended to provide an introduction to all relevant
vernacular architectural traditions and developments in western Indonesia The 21 contributions all written by researchers
with long first hand experience in the area they are dealing with are arranged according to the location of the ethnic groups
from west to east from Aceh to Western Java Each contributor was asked to enrich the architectural description with a self
chosen particular topic illustrating social ideological and environmental peculiarities of the field situation The book takes
account of the rich diversity of the various contexts and artistic elaborations that developed in the region The first collection
of essays Indonesian houses Volume 1 Tradition and transformation in vernacular architecture was published as nr 207 of the

Verhandelingen van het Koninklijk Instituut voor Taal Land en Volkenkunde Leiden 2003 It focussed on case studies demonstrating how a common architectural heritage has been affected by historical changes giving shape to a multiplicity of local developments and adaptations both in their material aspects and in their functions as objects of social value and meaning Lumber World Review ,1919 **Saturday Review** ,1861 **The Seventh Window** Wim de Groot,2005-05-01 1997 was an important year for Sint Janskerk in Gouda as the Museo del Prado in Madrid asked to borrow the cartoon of the King s Window by Dirck Crabeth for the exhibition Felipe II Un pr ncipe del Renacimiento Inspired by this event it was decided to compile an anthology about the church s seventh window Based on the many faceted topic an international group of scholars from various disciplines studied the stained glass window in depth as a crucial presentation of Philip II s Netherlandish and English years An important step in current research into an enthralling era in European history of the sixteenth century **Windows Vista - de basis** Gerrit Bruijnes,2007 **Leer programmeren in Python** ,2015-02-28 Met dit boekje over Python kan iedereen de eerste stappen zetten om zelf programma s te leren maken Python is een hogere programmeertaal die in de jaren tachtig is ontwikkeld door de Nederlander Guido van Rossum Het is een taal die enerzijds redelijk eenvoudig te leren is maar anderzijds heel veel mogelijk maakt Ideaal dus voor iedereen die voor het eerst gaat programmeren Python is bovendien gratis ook prettig Met Leer programmeren in Python haal je een handige gids in huis die je begeleidt op het zo boeiende pad van programmeren De vele voorbeelden maken stap voor stap duidelijk wat de bedoeling is *Games programmeren in 24 uur* Michael Morrison,2003
