Het Statuut Nederland Suriname De Nederlandse Antillen:

Het statuut P. M. G. P. Janssens, 1969 The Difficult Flowering of Surinam Edward Dew, 2013-03-09 In the months immediately preceding Surinam's independence November 25 1975 warning signals went up on both sides of the Atlantic This small ethnically plural society was torn by severe political conflict Elections in November 1973 had brought an end to political collaboration between Creoles and Hindustanis the country's two largest ethnic groups and the Creoles now in control of the government were resolutely pushing over Hindustani opposition to sever their colonial ties with the Netherlands But defections from the Creole benches during the summer of 1975 had produced a virtual stalemate in the legislature heightening fears that the government would act unilaterally The failure of Creole and Hindustani leaders to resolve their differences led many observers in both the Netherlands and Surinam to predict a collapse of democracy and or violent conflict once independence was proclaimed Ironically the dramatic last minute resolution of the struggle precipitated not only general jubilation and relief but also self congratulation as the leaders of Surinam's multiethnic society long priding themselves on achievements in harmonious understanding pulled out all stops in their independence day oratory No one could forget the nightmare of the preceding few years But neither could anyone familiar with Surinam's historical development flatly reject the rhetoric as being without some foundation In fact Surinam while severely tested by the most complex multi ethnic population in the Caribbean does have a record of which she can be proud and which deserves to be more widely known *Education in St. Maarten from 1954 to 2000* Milton George, 2016-02-29 This book narrates the development of education in St Maarten between 1954 and 2000 by tapping into the experience of the protagonists giving them a voice in the recording of their own history As such it lends a voice to postcolonial subjects who have often been bypassed or forgotten by most traditional historians and thus rendered voiceless The work is based on both written and oral history including interviews with important educational agents as well as former pupils and parents By doing this it describes the overall framework of education in St Maarten within the juridical space of the Kingdom of the Netherlands The first part of the book deals with the Dutch Antilles in general and with St Maarten in particular examining the effects of slavery and its consequences Both before and after the restructuration of the Kingdom of the Netherlands in 1954 education was essentially shaped by the different religious denominations on the island Over time St Maarten's schooling system developed from an almost non existing entity to a well structured one which closely resembled the educational framework in the Netherlands its former colonial ruler Part two reflects the respondents reactions to several issues concerning education in St Maarten It was only after local St Maarten students became teachers that topics about the island found their place in the curriculum Even though it took some time to integrate St Maarten in the curriculum the people did not and still do not have the feeling that education has let them down It is only now that they are beginning to question whether and to what extent schools were and are able to positively influence young people In the past they believed that schooling however foreign its curriculum may

have been did actually help them to find a niche in the world After studying both written and oral sources the book concludes that the coat of arms of St Maarten is representative of its findings about education on this island *Semper progrediens* Always progressing Education in St Maarten has progressed without showing radical breaks *Conferentie Nederland-Suriname-Nederlandse Antillen.
