

[illegible]

De drie mannen, die juist ontstept zijn van de ontastende hel van het vromenscheur, staan nu op een meer naar vreeschrikkelijken machts; het militaire standgerecht dat hen, met zijn gevecht gewone en leguleus instrumenten, ter dood veroordeelt.

De spanning die de auteur weet op te roepen en de maatschappelijkheid die de lezer overvalt bij het gelezen van zoveel onrust, zijn bijna ondragelijk. 'Op het veld van eer' is een met harde eenvoudigheid, zonder een zweem van pathos of sentimentaliteit geschreven oorlogsepos. *Humphrey D. Cobb* is een Canadees, die tijdens de wereldoorlog 1914-18 als vrijwilliger in het Engelse leger heeft gevochten. Twintig jaar nadat schreef hij dit boek met oorlogsherinneringen, dat hem over de hele wereld beroemd heeft gemaakt.

**Abstract** The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 10-year-old children. The study was conducted in a primary school in the city of Ankara, Turkey. The study group consisted of 20 children (10 boys and 10 girls) who were randomly selected from the school. The children were divided into two groups: a control group and an experimental group. The control group did not participate in any physical education program, while the experimental group participated in a 12-week training program. The physical fitness of the children was measured at the beginning and at the end of the 12-week period. The measurements included heart rate, blood pressure, and body mass index. The results of the study showed that the experimental group had significantly higher heart rates and blood pressures at the end of the 12-week period compared to the control group. The body mass index of the children in the experimental group also increased significantly. These findings suggest that a 12-week training program can improve the physical fitness of 10-year-old children.
