Tobacco use, cessation and related disparities among people living with substance use disorders and people

living with mental illness Laura Twyman, Peter James Kelly, Amanda R. Mathew, Gemma M. J. Taylor, 2023-04-24 **Care in Mental Health-Substance Use** David B. Cooper, 2019-01-15 The Mental Health Substance Use series provides clear guidance for professionals on this complex and increasingly recognised field. It concentrates on the concerns, dilemmas and concepts that impact on the life and well-being of affected individuals and those close to them, as well as the future direction of practice, education, research, services, intervention and treatment. This volume is primarily about caring for individuals and families who turn to professionals at a time when their lives are unmanageable alone but is also concerned with the care that these professions extend to their own members. It contends that these issues are closely interrelated with appropriate communication and support being key to both. Its chapters draw from a variety of theories and treatments to provide practical advice on the challenge of providing appropriate care tailored to a wide scope of individuals and families. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention and care response and the adoption of research-led best practice. They are essential reading for mental health and substance use professionals, students and educators.

Managing Your Depression Susan J. Noonan, 2025-10-07 The indispensable guide to managing mood disorders, now completely revised and updated. In this updated edition of the classic guide to managing your depression, Dr Susan J. Noonan provides comprehensive support for navigating the challenges of mood disorders with clarity, compassion and evidence-based solutions. As a physician who has personal experience living with depression, Dr Noonan offers practical tools and exercises to help individuals understand and manage their symptoms, build resilience and foster recovery. This updated edition introduces the most recent cutting-edge topics, including evolving precision medicine, while addressing the impact of age, cultural factors and co-occurring conditions on mental health. Brinkman's cumulatieve catalogus van boeken, 2000 Voorts een alphabetische lijst van Nederlandsche boeken in België uitgegeven *Refuge and Resilience* Laura Simich, Lisa Andermann, 2014-06-05 Taking an interdisciplinary approach and focusing on the social and psychological resources that promote resilience among forced migrants this book presents theory and evidence about what keeps refugees healthy during resettlement The book draws on contributions from cultural psychiatry anthropology ethics nursing psychiatric epidemiology sociology and social work Concern about immigrant mental health and social integration in resettlement countries has given rise to public debates that challenge scientists and policy makers to assemble facts and solutions to perceived problems Since the 1980s refugee mental health research has been productive but arguably overly focused on mental disorders and problems rather than solutions Social science perspectives are not well integrated with medical science and treatment which is at odds with social reality and underlies inadequacy and fragmentation in policy and service delivery Research and practice that contribute to positive refugee mental health from Canada and the U S show that refugee mental health promotion must take into account social and policy contexts of immigration and health care in addition to medical issues Despite traumatic experiences most refugees are not mentally ill in

a clinical sense and those who do need medical attention often do not receive appropriate care As recent studies show social and cultural determinants of health may play a larger role in refugee health and adaptation outcomes than do biological factors or pre migration experiences This book s goal therefore is to broaden the refugee mental health field with social and cultural perspectives on resilience and mental health
