God Is Not Great How Religion Poisons Everything:

God Is Not Great Christopher Hitchens, 2008-11-19 Christopher Hitchens described in the London Observer as one of the most prolific as well as brilliant journalists of our time takes on his biggest subject yet the increasingly dangerous role of religion in the world In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's bestseller *The End Of Faith* Christopher Hitchens makes the ultimate case against religion With a close and erudite reading of the major religious texts he documents the ways in which religion is a man made wish a cause of dangerous sexual repression and a distortion of our origins in the cosmos With eloquent clarity Hitchens frames the argument for a more secular life based on science and reason in which hell is replaced by the Hubble Telescope's awesome view of the universe and Moses and the burning bush give way to the beauty and symmetry of the double helix

expose its many flaws Rather than a dictator God will be shown to be a God of love Christianity too will be revealed as a faith that ought to resist tyranny provides the best foundation for intrinsic human value and is a rational belief system In so doing this book appeals to all who have been influenced or convinced by Hitchens arguments to reconsider their position and refuse to rage against the light *Systematic Atheology* John R. Mueller,2014-04-08 Groundbreaking Washington Examiner Economics is primed for and in desperate need of a revolution respected economic forecaster John D Mueller shows in this eye opening book To make the leap forward will require looking backward for as Redeeming Economics reveals the most important element of economic theory has been ignored for more than two centuries Since the great Adam Smith tore down this pillar of economic thought economic theory has been unable to account for a fundamental aspect of human experience the relationships that define us the loves and hates that motivate and distinguish us as persons In trying to reduce human behavior to exchanges modern economists have forgotten how these essential motivations are expressed as gifts or their opposite crimes Mueller makes economics whole again masterfully reapplying the economic thought of Aristotle Augustine and Aquinas **The Greatest Religion Never Tried** ,
