Working Mother, 2004-12 The magazine that helps career moms balance their personal and professional lives AWIS Magazine, 2007 **Canadian Families Today** David J. Cheal, 2007 This exciting collection of original essays by prominent Canadian scholars examines issues and trends affecting family life in Canada The text is organized in five parts The first part Conceptualizing the Family presents an overview of the sociology of the family in Canada it explores various definitions of family from an anthropological perspective examines family patterns in historical and cross cultural contexts provides an overview of the theoretical frameworks and research methodologies for family studies and discusses Canadian demographic trends The life cycle is the focus of the second part of this book In Chapter 3 Rachel Ariss shows how social expectations and ideologies about intimacy shape how individuals experience family formation In Parents and Children Gillian Ranson introduces the dominant ideals of motherhood and fatherhood in Canada and demonstrates the extent to which parenting practices are shaped by social and economic contexts Major changes in social practice and in the legal environment that have gone hand in hand with demographic changes to contribute to the episodic nature of spousal unions in Canada today In Chapter 5 Craig McKie outlines the legal history of the family in Canada and explores how the introduction of Islamic laws shariah challenge the principle that newcomers to Canada are free to continue on in their beliefs and practices when these are not in fundamental conflict with Canadian law Chapter 6 provides a timely examination of the issues that affect the sandwich generation coresidence with adult children the informalization of care to aging parents intergenerational ambivalence and the relationship between midlife families and social policy As Lori D Campbell and Michael P Carroll note in their chapter on older Canadians aging within a family context has become more complex and diverse than ever before The

changes that have been occurring in the form and structure of families as a result of greater longevity increased divorce remarriage and other socio demographic factors allow increased intergenerational exchange the exchange of support between older and younger generations Part III highlights the economic inequalities that exist among families As Andrea Doucet notes historical circumstances have contributed to strong divisions in both paid and unpaid work that are linked to gender class and ethnicity Chapter 8 examines key issues in the study of paid and unpaid work including the connections that exist between paid and unpaid work how unpaid work benefits the state the complexities involved in measuring unpaid work the costs of care and why gender differences in paid and unpaid work matter In the following chapter Joseph H Michalski argues that family change and demographic events have had their impact on income poverty to the extent that they influence the types of families and living arrangements in which Canadians share and pool income Diversity is the unifying theme of Part IV In her article In I Do Belong in Canada Same Sex Relationships and Marriage Doreen M Fumia reveals the insecure relationship between sexual minorities and citizenship highlighting the strategies used to reproduce normalized heterosexual notions of marriage and to avoid confronting heterosexism James S Frideres stresses the importance of the family among aboriginal immigrant and visible minorities communities as family members learn to cope with the dynamics of integration and adaptation to mainstream Canadian culture In Chapter 11 he focuses on key issues affecting family life for these groups intermarriage gender roles in minority communities social and economic demographics in comparison to mainstream Canadians differences in social structure and organization and risk factors that affect Aboriginal immigrant and visible minority youth In Chapter 12 Michelle K Owen draws our attention to the impact that disability has on Canadian families the role that gender plays in the lives of people with disabilities the relationship between poverty and disability and the increased incidence of physical and sexual abuse among people with a disability The final part of the book is devoted to law and policy In All in the Family Violence Against Women Children and the Aged Aysan Sev er examines the dark side of the family where power differences can translate into mental physical and or sexual abuse and even murder She reviews the basic definitions of abuse and introduces theories that explain violence within intimate relationships She then addresses possible interventions at the social and structural levels that may diminish the incidence of abuse The role of the state in regulating family life is addressed in Chapter 14 Catherine Krull details the evolution of Canada s family policies within a liberal welfare state and examines the ideology and implications of a universal versus a targeted approach to family policies Krull argues that we need to appreciate why state intervention is necessary if we are to achieve gender equity and suggests that Quebec s progressive family policies should serve as a model for the rest of Canada In the final chapter Margrit Eichler takes a lighthearted look at the predictions that experts made regarding the future of the family from 1930 to 1975 After reviewing some predictions that were spectacularly wrong and others that were surprisingly accurate Eichler bravely makes her own predictions regarding the future of the family she anticipates a modest trend towards three generation families as one

response to economic uncertainties and political turmoil a decrease in life expectancy continuing low fertility with high immigration from third world countries less homophobia a continuing slow erosion of strictly defined gender roles and a continuing diversity of unions including common law and legal marriages opposite and same sex marriages In short families will continue to exist some will prosper others less so and children will continue to be raised within family settings which will probably be even more diverse than at present
