Homemaker Simon Moss,1997 *Design in the Fifties* George H. Marcus,1998 The book describes the development of the colorful organic style that defined the Fifties and reflected the optimism and consumerism of postwar culture in the United States and abroad with examples ranging from architecture building engineering and transport to appliances tableware furnishings and dime store novelties *The British National Bibliography* Arthur James Wells,2003 Form Function Finland ,1990 Creating the Illusion Jay Jorgensen,Donald L. Scoggins,Turner Classic Movies,2015-10-06 Marilyn Monroe made history by standing over a subway grating in a white pleated halter dress designed by William Travilla Hubert de Givenchy immortalized the Little Black Dress with a single opening scene in *Breakfast at Tiffany's* A red nylon jacket signaled to audiences that James Dean was a Rebel Without a Cause For more than a century costume designers have left indelible impressions on moviegoers minds Yet until now so little has been known about the designers themselves and their work to complement and enrich stories through fashion *Creating the Illusion* presents the history of fashion on film showcasing not only classic moments from film favorites but a host of untold stories about the creative talent working behind the scenes to dress the stars from the silent era to the present day Among the book's sixty five designer profiles are Clare West Howard Greer Adrian Walter Plunkett Travis Banton Irene Edith Head Cecil Beaton Bob Mackie and Colleen Atwood The designers stories are set against the backdrop of Hollywood how they collaborated with great movie stars and filmmakers how they maneuvered within the studio system and how they came to design clothing that remains iconic decades after its first appearance The array of films discussed and showcased through photos spans more than one hundred years from draping Rudolph Valentino in exotic sheik dress to the legendary costuming of *Gone with the Wind* Alfred Hitchcock thrillers *Bonnie and Clyde* *Reservoir Dogs* and beyond This gloriously illustrated volume includes candid photos of the designers at work portraits and wardrobe tests of stars in costume and designer sketches Drawing from archival material and dozens of new interviews with award winning designers authors Jay Jorgensen and Donald L Scoggins offer a highly informative lavish and entertaining history of Hollywood costume design About TCM Turner Classic Movies is the definitive resource for the greatest movies of all time It engages entertains and enlightens to show how the entire spectrum of classic movies movie history and movie making touches us all and influences how we think and live today The Pathological Family Deborah Weinstein,2013-02-19 While iconic popular images celebrated family life during the 1950s and 1960s American families were simultaneously regarded as potentially menacing sources of social disruption The history of family therapy makes the complicated power of the family at midcentury vividly apparent Clinicians developed a new approach to psychotherapy that claimed to locate the cause and treatment of mental illness in observable patterns of family interaction and communication rather than in individual psyches Drawing on cybernetics systems theory and the social and behavioral sciences they ambitiously aimed to cure schizophrenia and stop juvenile delinquency With particular sensitivity to the

importance of scientific observation and visual technologies such as one way mirrors and training films in shaping the young field *The Pathological Family* examines how family therapy developed against the intellectual and cultural landscape of postwar America As Deborah Weinstein shows the midcentury expansion of America's therapeutic culture and the postwar fixation on family life profoundly affected one another Family therapists and other postwar commentators alike framed the promotion of democracy in the language of personality formation and psychological health forged in the crucible of the family As therapists in this era shifted their clinical gaze to whole families they nevertheless grappled in particular with the role played by mothers in the onset of their children's aberrant behavior Although attitudes toward family therapy have shifted during intervening generations the relations between family and therapeutic culture remain salient today **Technology in America** Alan I. Marcus, Howard P. Segal, 2018-04-05 Now in a thoroughly updated new edition this successful textbook surveys the history of technology in America from the 1600s to the 21st century Alan I Marcus and Howard P Segal explore the effect society culture politics and economics have had upon technological advances and place the evolution of American technology within the broader context of the development of systems such as transportation and communications This unique book connects phenomena such as colonial printing presses with the American Revolution early photographs with the creation of an allegedly unique American character and high tech advances in biotechnology with a growing desire for individual autonomy This is an ideal resource for undergraduate and postgraduate students of the history of technology the history of science and American history The Natural Family Where it Belongs Allan C. Carlson, 2017-07-12 *The Natural Family Where It Belongs* emphasizes the vital bond of the natural family to an agrarian like household where the sexual merges with the economic through marriage and child rearing and where the family is defined by its material efforts This agrarianism is alive and well in twenty first century America and Europe Allan C Carlson argues that recreating a family cantered economy portends renewal of the true democracy dreamed of by Washington Adams and Jefferson Critically well received this paperback edition makes *The Natural Family Where It Belongs* available to teachers and students of twentieth century American social history and the American family system It will also be welcomed by practitioners involved with the new agrarian revival of the last twenty five years As Carlson demonstrates agrarian households represent the touchstones of a sustainable human future Written by one of the most prestigious and respected scholars in the field *The Natural Family Where It Belongs* will influence how today's family life is viewed in America and abroad This volume is the latest in Transaction's Marriage and Family Studies series *International Encyclopedia of Housing and Home*, 2012-10-09 Available online via SciVerse ScienceDirect or in print for a limited time only *The International Encyclopedia of Housing and Home* Seven Volume Set is the first international reference work for housing scholars and professionals that uses studies in economics and finance psychology social policy sociology anthropology geography architecture law and other disciplines to create an international portrait of housing in all its facets from meanings of home at the microscale to impacts on macro
