The chapter topics cover both the broader issues such as the peculiar complexities of multipartner alliances that arise because of indirect or generalized reciprocities among its multiple members, vis-à-vis the direct reciprocity within dyadic or two-member alliances, and the roles of power and multilevel embeddedness, and the more focused topics of managing triadic alliances, the evolution of an airline alliance, and the nature of value creation in a consortium. The chapters include empirical as well as conceptual treatments of the selected topics and collectively present a wide-ranging review of the noteworthy research perspectives on the nature, management, and performance of multipartner alliances.
