Franchise Opportunities Handbook United States. Domestic and International Business Administration,1985 This is a directory of companies that grant franchises with detailed information for each listed franchise Europeans Are Lovin' It? Coca-Cola, McDonald's and Responses to American Global Businesses in Italy and France, 1886-2015 Giulia Crisanti,2023-09-25 From the French origin of Coca Cola to McDonald s sponsorship of the 2015 Milan Expo the book presents the first comparative history of these multinational corporations in two Western European countries addressing some compelling questions to what extent our increasingly globalized world is persistently shaped by forms of American hegemony and what are some of the forces that have been most effective at challenging the relationship between Americanization and globalization Through the local history of global companies the book tells a new story about not only the influence of American businesses in Europe but also the influence of European governments and societies on those American businesses and their adaptability The McDonaldization of Society George Ritzer,2018-01-12 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop The book that made McDonaldization part of the

lexicon of contemporary sociological theory read by hundreds of thousands of students is now in its Ninth Edition George Ritzer's seminal work of critical sociology *The McDonaldization of Society* continues to stand as one of the pillars of modern day sociological thought Building on the argument that the fast food restaurant has become the model for the rationalization process today this book links theory to contemporary life in a globalized world and resonates with students in a way that few other books do Ritzer opens students eyes to many current issues and shows how McDonaldization's principles apply to other settings especially in the areas of consumption and globalization This new edition has been significantly reoriented to reflect our experience of McDonaldization in the world of online consumption New to this Edition Examines how retailers like Amazon represent a new era of datafication the transformation of vast amounts of information into quantifiable data Discusses how the digital world has almost unlimited potential to turn consumers into prosumers doing volunteer work formerly done by paid employees This edition is more streamlined than previous editions to sharpen its argument and message and make it more useable as a secondary reading in a wide range of courses

Labour Relations in the Global Fast-Food Industry Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights

Working for McDonald's in Europe Tony Royle, 2004-08-02 The McDonald's Corporation is not only the largest system wide sales service in the world it is a phenomenon in its own right and is now recognized as the most famous brand in the world By providing a detailed analysis of the extent to which the McDonald's Corporation adapts or imposes its labour relations policies in Europe this volume represents a real life case study revealing the interaction between a global multi national enterprise and the regulatory systems of a number of different European countries Key features include an overview of the McDonald's Corporation's development and structure an analysis of its corporate culture and the issues of franchising an examination of key union strategies including systems of co determination consultation and collective bargaining a chapter dealing specifically with European legislation in particular the McDonald's European Works Council The author systematically analyzes the conflict between the McDonald's Corporation and the industrial relations systems of the European countries within which it operates and exposes this conflict as an unequal struggle between economic liberalism and collectivism

Hospitality Retail Management Conrad Lashley,2009-11-03 Hospitality Retail Management provides students and managers with a practical guide to managing units in hospitality retail organizations Customers rely on a particular chain of hotels restaurants or pubs to provide the same level of service and environment across the board This standardised service provides the customer with the security of knowing what to expect from that particular organisation However this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text *Down to Earth* Theodore Steinberg,2019 In this ambitious and provocative text environmental historian Ted Steinberg offers a sweeping history of the United States a history that places the environment at the very center of the narrative Now in a new edition Down to Earth reenvisions the story of America from the ground up It reveals how focusing on plants animals climate and other ecological factors can radically change the way that we think about the past Examining such familiar topics as colonization the industrial revolution slavery the Civil
