Choosing a Research Method, Scientific Inquiry: Christian S. Yorgure PhD,2018-06-15 This book provides the necessary operational understanding of the methods of research with a rare insight using detailed examples The thirst for education has increased geometrically around the globe In fact governments and advocacy groups see the drive for the attainment of formal training as a social change agent with ramifications in other domains including democratization and more equitable society The success of these campaigns has seen increased programs in colleges and individuals embracing different programs based on cost and convenience and so on Some students work independently with little direction This book is written to serve as a companion providing the necessary guidance on research methods and it is useful for anyone involved in research primarily due to specific examples including case study research utilizing qualitative and quantitative designs Subject Guide to Books in Print ,1997 *Books in Print* ,1991
