Goff On Goff Conversations And Lectures:

Goff on Goff Philip B. Welch, 1996 In the 1950s when Goff was head of the University of Oklahoma School of Architecture Oklahoma emerged as the nation's most daring avant garde training ground in the discipline This book edited by Philip B Welch is compiled from tapes recorded with Goff's permission by Welch who was one of Goff's students a longtime friend and himself a prominent teacher of architecture Goff on Goff embodies some of the architect's most stimulating lectures and conversations They have never before been available to readers Goff's now legendary teaching method was to throw his students back onto themselves He stressed honesty honesty to materials and honesty to the creative impulse the client the total environment An advocate of Gertrude Stein's continuous present Goff himself embodied the idea the torrents of words ideas and exhortations that rolled from his tongue held his hearers spellbound The material reflects the breadth of Goff's mind and interests A lifelong lover of the music of Debussy he devotes much of one session to the composer's influence on his architectural work To paraphrase Goff on music and architecture ideas not forms are the best starting point for structures and he once designed a house starting with the requirement that it have a revolving door Goff praises traditional Japanese culture for its homogeneity and immediately urges his students not to be daunted by the problems of diversity

Oklahomo Carol Mason, 2015-07-29 Uses the state of Oklahoma as a case study for how US conservatives have attempted to unqueer America since the 1950s By exploring the scandal filled lives of four Oklahomans this book demonstrates how unqueering operates in a conservative American context Carol Mason weaves a story about how homogenizing antigay ideas evolve from generation to generation so that they achieve particular economic imperial racial and gendered goals Using engaging and accessible commentary on antigay crusaders Sally Kern and Anita Bryant and two queer teachers dismissed from their positions Billy James Hargis and Bruce Goff Mason illustrates how the lives of these figures represent paradigmatic moments in conservative confrontations with queers and help us to understand the conflation of terrorism with homosexuality which dates back to the McCarthy era Oklahomo is a wonderful addition to recent queer studies of critical regionalism rural life and sexual norms Via four spot on case studies Carol Mason traces a hypnotic history of the US Right that deepens our knowledge of how cultures of terror materialized alongside cultures of sexuality in the American Midwest Overflowing with acuity this book is mandatory reading for scholars invested in LGBTQ studies rural urban studies and forgotten tales of modern conservatism Scott Herring author of Another Country Queer Anti Urbanism

Avant-Gardes, 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture

Queering the Countryside Mary L. Gray, Colin R. Johnson, Brian J. Gilley, 2016-03-15 This collection of original essays

confronts the assumption that queer desires depend upon urban life for meaning By considering rural queer life the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation The book's focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders It highlights the need to rethink notions of the closet and coming out and the characterizations of non urban sexualities and genders as isolated and in need of outreach Provided by publisher

The Inhabitable Flesh of Architecture Marcos Cruz, 2017-03-02 Today's architecture has failed the body with its long heritage of purity of form and aesthetic of cleanliness A resurgence of interest in flesh especially in art has led to a politics of abjection completely changing traditional aesthetics and is now giving light to an alternative discussion about the body in architecture This book is dedicated to a future vision of the body in architecture questioning the contemporary relationship between our Human Flesh and the changing Architectural Flesh Through the analysis and design of a variety of buildings and projects Flesh is proposed as a concept that extends the meaning of skin one of architecture's most fundamental metaphors It seeks to challenge a common misunderstanding of skin as a flat and thin surface In a time when a pervasive discourse about the impact of digital technologies risks turning the architectural skin ever more disembodied this book argues for a thick embodied flesh by exploring architectural interfaces that are truly inhabitable Different concepts of Flesh are investigated not only concerning the architectural and aesthetic but also the biological aspects The latter is materialised in form of Synthetic Neoplasms which are proposed as new semi living entities rather than more commonly derived from scaled up analogies between biological systems and larger scale architectural constructs These neoplastic creations are identified as partly designed object and partly living material in which the line between the natural and the artificial is progressively blurred Hybrid technologies and interdisciplinary work methodologies are thus required and lead to a revision of our current architectural practice
