Chapters 36-49: Responding to Literature: Point of View

Point of view refers to the perspective from which the reader views the story. Point of view comes across in the way that a story is narrated.

- Sometimes, one character is telling us the story: "I watched as Thomas was led to the Slammer to begin his day of punishment." If a character is telling us the story as they see it and they are using the words "I" and "we" frequently, it is called **FIRST PERSON POINT OF VIEW**.
- Sometimes, the narrator is directly addressing the reader: "You should never count your chickens before they hatch." The word "you" is used frequently. This is called **SECOND PERSON POINT OF VIEW**, it is often used when giving instructions. It is not often used in fiction.
- Often the narrator is telling us the story from above. They aren't a character in the story but are describing the action for us. The words "he," "she," and "they" are used frequently. If this is the case, then it is called **THIRD PERSON POINT OF VIEW**. But there are TWO versions of this.
 - If the narrator only knows the feelings and emotions of one character, it is called **THIRD PERSON LIMITED**. We are limited to only one perspective. Thomas wondered why the Glade's doors shut at night. This is in contrast to...
 - **THIRD PERSON OMNISCENT**. This is where we get to see into the minds of many characters and the narrator bounces back and forth between many different characters. Thomas wondered why the Glade's doors shut at night. Alby was always worried that the doors would shut with him on the outside.

In your opinion, from what of Point of View is The Maze Runner told?

Anthony, 2018-08-30 Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as The Lord of the Flies The Heart Goes Last The Giver and The Strain Trilogy as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails

The Art of Creative Writing: A Teacher's Guide Rodney Marshall, 2018-07-13 Most children enjoy creative writing It allows them a freedom which other parts of the English

curriculum do not. It also offers them an opportunity to express their personalities and can even be a therapeutic process. Unfortunately, it tends to be the one area which many teachers struggle with. Professional writers research thoroughly before picking up a pen. Students need to do the same. This book guides teachers through the process, exploring a range of topics from story starters through genre writing to how historical events and topical debates can be used as launching pads for story writing. The guide also contains vocabulary banks and examples of pupils writing. Following it will result in personal narratives which children of any ability can enjoy sharing in the classroom.

Critical Foundations in Young Adult Literature: Challenging Genres Antero

Garcia, 2013-10-11 Young Adult literature from The Outsiders to Harry Potter has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty-first century. With the rise of mega blockbuster films based on these books in recent years, the young adult genre is being co-opted by curious adult readers and by Hollywood producers. However, while the genre may be getting more readers than ever before, Young Adult literature remains exclusionary and problematic. Few titles feature historically marginalized individuals; the books present heteronormative perspectives and gender stereotypes continue to persist. Taking a critical approach, *Young Adult Literature: Challenging Genres* offers educators, youth librarians, and students a set of strategies for unpacking challenging and transforming the assumptions of some of the genre's most popular titles. Pushing the genre forward, Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media.
