There is a lot of variety in the world of fetish and kink with limitless possibilities for creativity in sensual play. Many people unfamiliar with this lifestyle immediately focus on the more obvious or superficial aspects like honorific nicknames or corsets and leather boots. But for people who participate in fetishes as a lifestyle, the practices and games are an essential part of their relationship with its own set of rules and standards. One particularly interesting subculture within the world of kink is that of the female keyholder and her chastised male subordinate. The phrase male chastity probably immediately spooks some men or excites others, whether they are willing to admit it or not. Either attitude is amusing to the sophisticated woman with a predilection for domination and control. For submissive men, there are many benefits to a male chastity arrangement. These devices are a valuable tool for the modern dominant woman and excellent for contemporary tease and denial games. Exploring male chastity can be a fun new game for adventurous couples or a complete long-term lifestyle for kinky pairs. Whatever the relationship type, employing a male chastity device sends a clear message: he's on lockdown and she holds the key.
