## Guide Nepali Class Nine:

Gender Trouble Makers Jennifer Rothchild, 2007-05-07 International development efforts aimed at improving girls' lives and education have been well intended somewhat effective but ultimately short sighted and incomplete. This is because international development efforts often operate under a reductive understanding of the term gender and how it influences the lives of girls and boys. Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour. In particular the analysis in *Gender Trouble Makers* focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal. In developing countries like Nepal promoting access to and participation in existing formal education programme is clearly necessary but it is not in itself sufficient to transform gender power relations in the broader society. When gender is properly addressed as a process then all stakeholders involved researchers governmental officials and community members can begin to understand and devise more effective ways to increase both girl and boy students enrollment participation and success in school.

photo of climbers standing in line to get to the top of Everest may think they have a sense of what the world's highest mountain is like. It's an extreme landscape where bad weather and incredible altitude can kill an overcrowded, trashed-out recreation destination and a place where the rich exploit local Sherpas while padding their egos and social media feeds. There's some truth to these clichés but they're a sliver of the story. Unlike any book to date, Everest Inc. is the definitive account of how a few daring entrepreneurs paired raw courage and naked ambition to get paying clients safely up and down Everest. Until the late eighties, such a thing was considered impossible. Within a few years, Everest guiding was a burgeoning industry. Today, ninety percent of the people on the mountain are clients or employees of guided expeditions. Studded with quotes from original interviews with more than a hundred Western and Sherpa climbers, clients, writers, and filmmakers including Jimmy Chin and Conrad Anker, Everest Inc. foregrounds the colorful voices of the people who have made the mountain what it is today. As professional climber and author Freddie Wilkinson says, "Whether you are thinking about taking a crack at the world's highest peak or are simply an armchair mountaineer trying to make sense of the complex dynamics driving the modern Everest industry, Everest Inc. should be required reading." *Universal's Master Guide to Judicial Service Examination* Gaurac Mehta, 2010. *The Two-Year Mountain* Phil Deuschle, 2012. With his life literally hanging from a slender rope over a crevasse near the top of a Himalayan mountain, a young man relives in his mind a relentless two-year physical and spiritual test as a Peace Corps volunteer in a remote mountain village of Nepal. Combining the elements of adventure story, travel log, and personal confession, this absorbing account describes a wrenching experience that belies the idealistic expectations of many Peace Corps volunteers. Following a two-year stint as a science and mathematics teacher in a Nepalese village, Phil Deuschle sets off alone on a three-month expedition to conquer Pharchamo, 20,580 feet high, which has claimed several lives and is his final goal in the Himalayas. This trek forms the framework of the book, and into it Deuschle weaves the story of his experiences over the previous two years in a series of sharply etched, swiftly moving, often humorous anecdotes. Deuschle is not starry-eyed about Nepal and its people or, least of all, about the mission of the Peace Corps. He vividly describes events that are both horrible and poignant: being charged by a rhinoceros, the awful fascination of watching a corpse burn on a funeral pyre, the struggle to save a child's life scaling a Himalayan peak higher than Mount McKinley, the highest mountain in North America. Despite his difficulties, he steels himself to stay one year, then the full two years, and imperceptibly grows so attached to the village that he leaves it in tears. Mourning the small death of his departure, confused about his identity as an American and feeling more alienated than before, he sets off on a final reckless solo climb of Mount Pharchamo, hardly caring whether he survives. Apathetic from lack of oxygen and from his own malaise, and only when his life literally hangs on a slender rope does he overcome despair and make a gigantic effort to save himself. The two parts of the book, the emotional challenge of the village and the physical challenge of the climb, come together in a triumphant affirmation of life. A native Californian, Phil Deuschle is currently teaching handicapped children in Denmark. *The Two-Year Mountain* was originally

published by Bradt in 1986 and remains as relevant to the spirit of exploration and real raw travel writing today as it was then

**Simultaneous Identities** Uma Pradhan, 2020-12-03 The recent socio political changes in Nepal have brought assimilationist notions of Nepali nationalism under a tight scrutiny and drawn attention to more plural inclusive and diverse notions of Nepalianness However both assimilationist and pluralist visions continue to remain normative in their approach and often posit ethnic and national identity in opposition to each other Drawing on the everyday practices in the two schools this book illustrates that social actors in minority language education did not necessarily select between minority identity and national identity but instead made simultaneous claims to more than one social identity by discursively positioning ethnic identity as national identity It builds on the notion of simultaneity to illustrate that it is through the unresolved co presences of apparently contradictory ways that people maintain their multi layered identities By arguing for an analytical necessity to adopt relational approach it aims to complicate the neat compartmentalisation of identities

story of Nepal's changing economy from the time of unification to a remittance economy driven by the labour of Nepal's diaspora. Acclaimed columnist and business leader Sujeev Shakya examines not only the squandered opportunities of the past but also what Nepali citizens need to do to escape from a feudal history of dependence and powerlessness. Here is a Nepal that could be an Asian Tiger. Here are resourceful village communities who manage their own electricity, aspirational Nepali youth, energetic migrant workers and driven foreign aid workers who can make this dream a reality. Compelling and eminently readable, this updated and enriched version brings the country alive with its acute business understanding, humour and local colour.
