30 April, 2012 - 14:28 by newsmasterFE

Dalam menyusun Program Kreativitas Mahasiswa (PKM) mahasiswa dituntut untuk berpikir kritis dan memandang sesuatu sebagai masalah yang perlu diteliti saat orang lain menganggapnya bukan sebagai masalah yang perlu diteliti. Orang yang berpikir kreatif cenderung berpikir terbalik dari orang pada umumnya, demikian disampaikan Pujiyanto, M.Pd. Dosen Jurusan Pendidikan Fisika FMIPA UNY sekaligus Pembimbing PKM dan Pimnas pada Pelatihan PKM dengan tema "Kiat Sukses Menembus PKM 2013 & Pimnas 2012" pada Sabtu (28/4) yang diselenggarakan oleh Fakultas Ekonomi Universitas Negeri Yogyakarta (FE UNY) di Auditorium FE UNY. Diikuti sebanyak 214 mahasiswa yang mendapatkan beasiswa pada tahun 2012. Acara dibuka oleh Dekan FE UNY Dr. Sugiharsono, M.Si. dan dihadiri pula Wakil Dekan II, III dan Dosen Pembimbing Kemahasiswaan dan Unit Kegiatan Kemahasiswaan Fakultas (UKMF).

Lanjut Pujiyanto, Peran dosen dalam membimbing penyusunan karya ilmiah mahasiswa sebaiknya harus mengenali tipe mahasiswa terlebih dahulu. Apakah mahasiswa tersebut memiliki banyak ide ataukah kurang memiliki ide. Bila mahasiswa tersebut memiliki banyak ide maka peran dosen pembimbing mengarahkan mahasiswa agar lebih fokus sebab pada umumnya dengan banyak ide menjadikan kegiatan mahasiswa tidak fokus. Namun bila mahasiswa kurang memiliki ide maka peran dosen pembimbing mengarahkan mahasiswa agar bergabung dengan teman lain yang memiliki ide dan berusaha untuk berkomitmen terhadap kerja tim dan seluruh anggota kelompok.

Asas penilaian dalam PKM memperhatikan 3 hal pokok yaitu kualitas, transparansi dan perlakuan yang sama. Tentunya kualitas ilmiah proposal harus mengandung kata kunci isu dan atau teknologi untuk mencapai tujuan yang akan dicapai, derajat inovasi dan proses yang ingin dicapai harus melebihi batas state of the arts serta azas kelayakan dan kecukupan. Selain itu juga kegunaan bagi masyarakat juga sangat diperhatikan antara lain; memberikan prospek perbaikan kesejahteraan, kesehatan dan keamanan masyarakat, memperbaiki tingkat keahlian masyarakat dan melestarikan atau meningkatkan kualitas lingkungan dan sumber daya alam, ujanmya.

**The Routledge Companion to Humanitarian Action** Roger Mac Ginty, Jenny H. Peterson, 2015-03-24 The Companion on Humanitarian Action addresses the political, ethical, legal,

and practical issues which influence reactions to humanitarian crisis. It does so by exploring the daily dilemmas faced by a range of actors including policy makers, aid workers, the private sector and the beneficiaries of aid, and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these. Through such explorations, it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action. The Companion will be of use to those interested in a range of humanitarian programmes ranging from emergency medical assistance, military interventions, managing refugee flows and the implementation of international humanitarian law. As opposed to addressing specific programmes, it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action. The first section explores varying interpretations of humanitarianism, including critical historical and political/economic explanations, as well as more practice-based explorations focused on notions, needs assessments and evaluation. Following this, readers will be exposed to the latest debates on a range of humanitarian principles, including neutrality and sovereignty, before exploring the key issues faced by the main actors involved in humanitarian crisis, from international NGOs to local community-based organizations. The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system, including the increasing role of social media in responding to crises. Whilst not a how-to guide, the Companion contains many practical insights for policy makers and aid workers, whilst also offering analytical insights for students of humanitarian action. Indeed, throughout the book, readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs. Exploring a sector that is far from homogenous, both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions, but also insight into current changes and progress occurring in the field of humanitarian practice.
