Historical Cookbooks:

The Historical Cookbook of the American Negro Sue Bailey Thurman, Anne Bower, National Council of Negro Women, 2000 From the organization that brought us The Black Family Reunion cookbooks comes The Historical Cookbook of the American Negro a fun richly brewed collection of recipes historical facts photos and personal anecdotes First published in 1958 by the National Council of Negro Women it includes contributions from members in thirty six states plus the District of Columbia and offers exceptional insight into American history and the African American community at the time of its publication As John Hope Franklin whose own family owns a copy of the book points out much of the cultural information in the cookbook has never been passed down to successive generations Arranged according to the calendar year the cookbook opens with a cake to be baked in celebration of both New Year's Day and the Emancipation Proclamation Scattered among the recipes one finds excerpts from documents such as the Gettysburg Address and the Universal Declaration of Human Rights Tributes to well known figures like Harriet Tubman Phillis Wheatley and Booker T Washington appear alongside brief bios and recipes in celebration of important but obscured figures This delightful collection of delicious recipes helps us commemorate African American history throughout the year *The American History Cookbook* Mark H. Zanger, 2003-04-30 This book uses historical commentary and recipes to trace the history of American cooking from the first European contact with Native Americans to the 1970s Each of 50 chronologically arranged topical chapters contain 500 1 000 words of general commentary followed by descriptions and clear step by step instructions for 3 4 recipes The recipes are drawn from a wide variety of historical cookbooks and other historical sources The topics cover broad periods e g Settlers and Indians Early American Spring Meals Health Food in Victorian America particular events e g Civil War South The Great Depression and particular trends or movements e g Railroad Food School Lunch The Labor Movement Also presented are engaging special topics such as Patriotic Cakes Abolitionist Recipes Communal Experiments and Modern Health Food The book is indexed by year of publication of recipes states and broad subjects *Historical cook books in the main collection of the Conrad N. Hilton Library* Culinary Institute of America, 2001 *Cooking in America, 1590-1840* Trudy Eden, 2006-08-30 There are no recipes for what the Indians ate in Colonial times but this cookbook uses period quotations to detail what and how the foodstuffs were prepared The bulk of the cookbook is devoted to what the European immigrants cooked and what evolved into American cooking The first colonists from England brought their foodways to America The basic foods that Americans of European descent ate changed very little from 1600 to 1840 While the major basic foods remained the same their part in the total diet changed Americans at the end of the period ate far more beef and chicken than did the first colonists They used more milk butter and cream They also ate more wheat in the form of breads cakes cookies crackers and cereals The same was true with fruits Over time the more exotic vegetables like broccoli cauliflower artichokes and numerous root vegetables including both sweet and white potatoes became common vegetables By the end of this period

many Americans were even eating foods like tomatoes okra and sesame which were unknown to their ancestors In addition Americans like their relatives in Europe incorporated coffee tea and chocolate into their diets as well as more sugar Along with them came new customs such as tea time and for men socializing at coffeehouses Also distilled beverages particularly rum which was often made into a punch with citrus juices were increasingly used Basic cooking technology also remained the same throughout the period and the cookbook gives a sense of how meals were prepared The open hearth provided the major heat source As time passed though more and more people could afford to have wood fired brick ovens in their homes Although the recipes presented here from the first century of colonization come from cookbooks written for people of upper status by the end of the time period literacy rates were much higher among men and women European and American authors published numerous cookbooks that were relatively inexpensive and available so it is reasonable to assume that those recipes were representative of actual American cookery practices Many changes occurred to cookbooks and recipes during this period The recipes became more detailed and more reliant on standard measures and the recipes were for foods that are less complicated and expensive to prepare This fact is more a sign that cookbooks were being written for a less wealthy group of readers than that tastes and appetites had changed The trend toward simple and frugal foods continued up to 1840 and beyond a sign that readership had expanded as well as an indicator of what the bulk of Americans were eating As well recipes that were considered American were developed All of these recipes are in their original form and have been taken from contemporary published or private cookbooks The explanations after the recipes give historical information and suggestions if the recipe is vague or if it calls for an unusual ingredient Dining tips are included as well Period illustrations complement the recipes

Deborah L Krohn,2016-04-15 Though Bartolomeo Scappi s Opera 1570 the first illustrated cookbook is well known to
historians of food up to now there has been no study of its illustrations unique in printed books through the early seventeenth
century In Food and Knowledge in Renaissance Italy Krohn both treats the illustrations in Scappi s cookbook as visual
evidence for a lost material reality and through the illustrations including several newly discovered hand colored examples
connects Scappi s Opera with other types of late Renaissance illustrated books What emerges from both of these approaches
is a new way of thinking about the place of cookbooks in the history of knowledge Krohn argues that with the increasing
professionalization of many skills and trades Scappi was at the vanguard of a new way of looking not just at the kitchen as
workshop or laboratory but at the ways in which artisanal knowledge was visualized and disseminated by a range of
craftsmen from engineers to architects The recipes in Scappi s Opera belong on the one hand to a genre of cookery books
household manuals and courtesy books that was well established by the middle of the sixteenth century but the illustrations
suggest connections to an entirely different and emergent world of knowledge It is through study of the illustrations that
these connections are discerned explained and interpreted As one of the most important cookbooks for early modern Europe
the time is ripe for a focused study of Scappi s Opera in the various contexts in which Krohn frames it book history

books and the use of the instructions therein investigating patterns of recipe collection and their evolution over time the
international transmission of recipes ingredients and artisanal knowledge and women s manuscript culture The authors
explore how localised traditions of book production and domestic record keeping shaped the physical forms of the books and
how stains folds marginalia items pressed between pages and pasted in additions reveal their many uses The inclusion of new

ingredients and the integration of foreign recipes point to the many ways in which people food ideas and books travelled the globe

Investigating Family, Food, and Housing Themes in Social Studies Cynthia Williams Resor, 2017-10-08

Investigating Family Food and Housing Themes in Social Studies asks students to critically examine their own culture by contrasting it with the daily lives of average people in the past What people ate where people lived and the functions of families are examined and contrasted to subjective cultural ideals prescribing what families food and housing ought to have been The relationship between housing food and family and social class status and gender are emphasized Each chapter includes essential questions to focus student inquiry historical overviews focused on changes in family food and housing from the pre industrial era through its transformation during the Industrial Revolution and into the twentieth century learning activities and primary source documents and images This unique approach to teaching history and social studies supports thematic instruction culturally responsive teaching place based education and literacy in the elementary middle or secondary classrooms

Rebellious Cooks and Recipe Writing in Communist Bulgaria Albena Shkodrova, 2021-01-28 How did people exist and resist in their daily lives under Soviet control in the Cold War period Shkodrova s monograph shows how in communist Bulgaria many women passionately exchanged recipes with friends and strangers to build substantial and impressive private collections of recipes This activity was borderline contraband in going against the general disapproval of home cooking that formed part of the ideology of communism in which home cooking was considered household slavery and an agent of patriarchy Private recipe collections were by far the preferred written source of culinary information more popular than the state approved commercial cookbooks Shkodrova shows how these recipe collections held many different meanings for the women who collected them from helping to navigate the communist economy to enabling new friendships to be developed while engaging safely in power relations and cultivating a sense of individual identity in a society where collective existence was prioritised and exalted Drawing on primary sources including scrapbook cookbooks and working from the establishment of cookery classes before communism and their obliteration thereafter Shkodrova presents a structured outline of the meanings of recipes exchange and home cooking for Bulgarian women under communism
